June 12, 2006

David K. Ikari, Chief
Dairy Marketing Branch
California Department of Food and Agriculture
1220 N Street
Sacramento, CA 95814

Re: Post-Hearing Brief for the June 1, 2006 Class 2, 3,4a & 4b Hearing

Dear Mr. Ikari:

We thank you for the opportunity to file this post-hearing brief. There are a few items that we would like to address.

We are opposed to the Dairy Institute's proposal or any other that would reduce the producer price. Producers cannot withstand further reduction in price at this time. I am enclosing a list of vendors that also would be affected.

Producers should not be made liable for processors management. Make allowance increases and formula adjustments should not be used to increase plant capacity.

Producers should receive the fair value of their milk through the pricing formulas according to end product pricing under the California system.

We are in favor of flooring the commodity values used in the 4a and 4b formulas at the CCC support purchase price level. It should never have been removed. We also support snubbing the whey value at the make allowance level so it cannot be a negative

Very truly yours,

Linda Lopes
