STORMWATER PERMIT INFORMATION HANDOUT

Effective January 1, 2014, the California Business and Professions Code Section 12703.1(a)(2), requires junk dealer or recycler weighmasters applying for or renewing a weighmaster license to furnish a statement indicating that the applicant has either filed an application for a stormwater permit or is not required to obtain a stormwater permit.

Preliminary inspection observations have determined that a stormwater permit may be required at your facility. For more information on stormwater permits, please visit the State Water Resources Control Board's Stormwater Information website at: http://www.swrcb.ca.gov/water_issues/programs/stormwater.

You can also contact your local Regional Water Quality Control Board (RWQCB) at the numbers below to determine if your facility needs a stormwater permit. For an expanded RWQCB directory, please visit their website at: http://waterboards.ca.gov/about_us/contact_us/rwqcbs_directory.shtml.

The Division of Measurement Standards will follow-up on all non-compliances. If it is determined that the information you submitted on the weighmaster license application is materially inaccurate, you will be at risk of having your weighmaster license revoked.
