SUBJECT: Developmental Engine Fuel Variance

The Lubrizol Corporation has been granted a variance from the engine fuel standards, pursuant to Business and Professions Code, Section 13405, to market its PuriNOxTM fuel technology. The terms of the variance allow sales only to fleet type centrally fueled vehicles and equipment users while chemical and performance standards are being developed.

PuriNOxTM fuel is a water emulsified diesel fuel sold at centralized locations through a blending unit. The Lubrizol Corporation has informed the Division that the following are authorized fuel marketers and distributors of the PuriNOxTM fuel technology:

Marketer/Distributor	Blending Unit Location	Brand Name
Chevron U.S.A., Inc. Mike Ruddock, Project Manager	Chevron Montebello Terminal 601 S. Vall Avenue Montebello, CA 906040	Profomix TM Fuel
General Petroleum Anthony Misetich, Sales Manager	General Petroleum will market fuel produced by the Chevron Montebello Terminal	Profomix TM Fuel
Ramos Oil Company Kent Ramos, President	Ramos Oil Company 1900 North First Street Dixon, CA 95620	PuriNOx TM Fuel

Any questions regarding this variance should be directed to David Lazier, Weighmaster/Petroleum Branch Chief, at (916) 229-3044.

Sincerely,

Mike Cleary
Director
