It is a complete defense to a criminal prosecution for a violation of any provision of this division or a regulation adopted pursuant to any provision of this division that the defendant has been assessed and has paid a civil penalty under this section for the same act or acts constituting the violation. Any civil penalty under this section shall be cumulative to civil remedies or penalties imposed under any other law.

(b) Before a civil penalty is levied, the person charged with the violation shall be given a written notice of the proposed action including the nature of the violation and the amount of the proposed penalty, and shall have the right to request a hearing. The request shall be made within 20 days after receiving notice of the proposed action. A notice of the proposed action that is sent by certified mail to the last known address of the person charged shall be considered received even if delivery is refused or the notice is not accepted at that address. If a hearing is requested, notice of the time and place of the hearing shall be given at least 10 days before the date set for the hearing. At the hearing, the person shall be given an opportunity to review the sealer's evidence and to present evidence on his or her own behalf. If a hearing is not timely requested, the sealer may take the action proposed without a hearing.

WEIGHTS AND MEASURES

(c) If the person upon whom the sealer levied a civil penalty requested and appeared at a hearing, the person may appeal the sealer's decision to the secretary within 30 days of the date of receiving a copy of the sealer's decision. The following procedures apply to the appeal:

(1) The appeal shall be in writing and signed by the appellant or his or her authorized agent, state the grounds for the appeal, and include a copy of the sealer's decision. The appellant shall file a copy of the appeal with the sealer at the same time it is filed with the secretary.

(2) The appellant and the sealer may, at the time of filing the appeal or within 10 days thereafter or at a later time prescribed by the secretary, present the record of the hearing including written evidence that was submitted at the hearing and a written argument to the secretary stating grounds for affirming, modifying, or reversing the sealer's decision.

(3) The secretary may grant oral arguments upon application made at the time written arguments are filed.

(4) If an application to present an oral argument is granted, written notice of the time and place for the oral argument shall be given at least 10 days before the date set therefor. The times may be altered by mutual agreement of the appellant, the sealer, and the secretary.

(5) The secretary shall decide the appeal on the record of the hearing, including the written evidence and the written argument described in paragraph (2), that he or she has received. If the secretary finds substantial evidence in the record to support the sealer's decision, the secretary shall affirm the decision.

(6) The secretary shall render a written decision within 45 days of the date of appeal or within 15 days of the date of oral arguments or as soon thereafter as practicable.

(7) On an appeal pursuant to this section, the secretary may affirm the sealer's decision, modify the sealer's decision by reducing or increasing the amount of the penalty levied so that it is within the secretary's guidelines for imposing civil penalties, or reverse the sealer's decision. Any civil penalty increased by the secretary shall not be higher than that proposed in the sealer's notice of proposed action given pursuant to subdivision (b). A copy of the secretary's decision shall be delivered or mailed to the appellant and the sealer.

(8) Any person who does not request a hearing pursuant to subdivision (b) may not file an appeal pursuant to this subdivision.

GENERAL PROVISIONS

(9) Review of a decision of the secretary may be sought by the appellant within 30 days of the date of the decision pursuant to Section 1094.5 of the Code of Civil Procedure.

(d) After the exhaustion of the appeal and review procedures provided in this section, the sealer, or his or her representative, may file a certified copy of a final decision of the sealer that directs the payment of a civil penalty and, if applicable, a copy of any decision of the secretary or his or her authorized representative rendered on an appeal from the sealer's decision and a copy of any order that denies a petition for a writ of administrative mandamus, with the clerk of the superior court of any county. Judgment shall be entered immediately by the clerk in conformity with the decision or order. No fees shall be charged by the clerk of the superior court for the performance of any official service required in connection with the entry of judgment pursuant to this section.

(e) If the civil penalty is levied by the State Sealer, the revenues derived therefrom shall be deposited in the Department of Food and Agriculture Fund and, upon appropriation, shall be used by the State Sealer to carry out his or her responsibilities under this division. If the civil penalty is levied by the county sealer, the revenues shall be deposited in the general fund of the county and, upon appropriation by the board of supervisors, shall be used by the county sealer to carry out his or her responsibilities under this division.

(f) This section does not apply to violations involving utility meters, or to violations involving the testing and inspection of utility meters, in mobilehome parks, recreational vehicle parks, or apartment complexes, where the owner of the park or complex owns and is responsible for the utility meters.

(g) Upon the written request of the Attorney General of California, any district attorney, or any city prosecutor or city attorney described in subdivision (a) of Section 17206, the State Sealer or the county sealer within their respective jurisdictions, shall provide all reports and records regarding any actions that occurred within the four months prior to the date of the written request in which civil penalties were levied pursuant to this section or liability for costs incurred are determined pursuant to Section 12015.5.

(a) A county sealer may test and certify the accuracy of all parking meters located in the county in which the sealer has jurisdiction, including, but not limited to, parking meters owned or operated by a city, county, or a city and county.

(b) If the county sealer determines that a specific parking meter is inaccurate, the sealer shall notify the owner or operator of the meter, may immediately close the meter, and any person may park a vehicle free of charge in the parking space to which the inaccurate meter corresponds until the owner or operator replaces or repairs the inaccurate parking meter.

(c) For purposes of this section, an “inaccurate parking meter” means a parking meter that provides less time than is paid for by a person using the metered parking space.

Any county which inspects or tests any weighing or measuring device or instrument used commercially, at the request of the owner or user of such device, when such inspection or testing of the device could legally be performed by a registered repairman, may, if authorized by the county board of supervisors, collect from the requesting owner or user thereof a fee.

WEIGHTS AND MEASURES

Such fee shall be based upon a uniform schedule of fees, which shall be prescribed by the director for use by the counties. The director shall prepare the schedule of fees to be comparable with the rates charged by the industry's registered repairmen. All fees collected shall be credited to the General Fund of the county in which collected and used only for the administration and enforcement of laws pertaining to weights and measures.

Each sealer shall, from time to time, weigh or measure packages, containers, or amounts of commodities sold, or in the process of delivery, in order to determine whether they contain the quantity or amount represented and whether they are being sold in accordance with law.

The secretary shall adopt necessary regulations governing the procedures to be followed by sealers in connection with the weighing or measuring of amounts of commodities in individual packages, containers, or lots of packages or containers, including the procedures for sampling a lot, and for determining whether any package, container, or a lot of packages or containers complies with this section.

In adopting those regulations, the secretary shall adopt by reference the package checking procedures recommended by the National Conference on Weights and Measures and published in the current edition of the National Institute of Standards and Technology Handbook 133, "Checking the Net Contents of Packaged Goods," and any subsequent amendments thereto, except insofar as those requirements are specifically modified, amended, or rejected by a regulation adopted by the secretary.

Any lot, package, or container of any commodity that conforms to this section shall be deemed to be in conformity with this division relating to stated net weights or measures.

Whenever a lot, package, or container of any commodity is found to contain, through the procedures authorized in this section, a less amount than that represented, the sealer shall order, in writing, that lot, package, or container of commodity off sale and require that an accurate statement of quantity be placed on each package or container before it may be released for sale by the sealer in writing. The sealer may seize as evidence any package or container that is found to contain a less amount than that represented.

The director shall adopt necessary regulations governing the inspection frequency of all commercially used weights, measures and weighing and measuring apparatus in the state.

The sealer of each county shall perform such inspections as may be required by the director. Nothing in this section shall be construed to prohibit the sealer from inspecting a device more frequently than required if he deems such test necessary.

Any such regulation shall be adopted by the director in conformity with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

In counties where the director finds that the sealer, because of lack of equipment, is unable or fails to perform such tests as required herein, the director may enter into a contract with the board of supervisors of each of such counties to perform such tests. Such contracts shall provide that the county shall pay the cost of such services based upon a uniform schedule of fees developed by the director. Such fee schedule shall be based on the approximate cost of performing such services. Such contracts shall also provide that the director shall periodically render a bill to each county so served for the cost of services rendered, and the auditor of the county so billed shall pay such charge in the same manner in which other claims against the county are paid.

All fees collected under the provisions of this section shall be credited to the General Fund.

§ 12601. LEGISLATIVE POLICY

This chapter is designed to protect purchasers of any commodity within its provisions against deception or misrepresentation. Packages and their labels should enable consumers to obtain accurate information as to the quantity of the contents and should facilitate value comparisons.

It is hereby declared to be the policy of the Legislature to assist in attaining these goals.

§ 12602. UNLAWFUL TO DISTRIBUTE COMMODITY CONTAINED IN NON-CONFORMING PACKAGE OR LABEL: EXCEPTION FOR WHOLESALE OR RETAIL DISTRIBUTORS NOT ENGAGED IN PACKAGING OR LABELING

(a) It is unlawful for any person engaged in the packaging or labeling of any commodity for distribution or sale, or for any person (other than a common carrier for hire, a contract carrier for hire, or a freight forwarder for hire) engaged in the distribution of any packaged or labeled commodity, to distribute or to cause to be distributed any such commodity if the commodity is contained in a package, or if there is affixed to that commodity a label, which does not conform to the provisions of this chapter or the regulations adopted under the authority of this chapter or the provisions of, or the regulations adopted under, Chapter 6.6 (commencing with Section 12665), Chapter 14 (commencing with Section 13400), or Chapter 15 (commencing with Section 13700).

§ 12603. REGULATIONS TO BE ESTABLISHED BY DIRECTOR: REQUIRED PROVISIONS OF REGULATIONS

No person subject to the prohibition in Section 12602 shall distribute any packaged commodity unless it is in conformity with regulations that shall be established by the director that shall provide:

(a) The commodity shall bear a label specifying the identity of the commodity and the name and place of business of the manufacturer, packer, or distributor.

(b) The net quantity of contents (in terms of weight or mass, measure, numerical count, or time) shall be separately and accurately stated in a uniform location upon the principal display panel of that label, using the most appropriate units of both the customary inch-pound system of measure, and except as provided in subdivisions (c) and (d), the SI (Système International d'Unités) metric system.

(c) On a random package labeled in terms of pounds and decimal fractions of the pound, the statement may be carried out to not more than three decimal places and is not required to, but may include a statement in terms of the SI metric system carried out to not more than three decimal places.

(d) The requirements of subdivision (b) concerning labeling using the metric system do not apply to nonconsumer packages, foods that are packaged at the retail store level, or to the sale or distribution of products whose labels have been printed prior to February 14, 1994.

(e) This section shall become operative on February 14, 1994.

Repealed Stats 1977 ch 763.

§ 12605. PROHIBITION OF DISTRIBUTION OF PACKAGED COMMODITY CONTAINING QUALIFYING WORDS IN SEPARATE STATEMENT OF NET QUANTITY OF CONTENTS: SUPPLEMENTAL STATEMENTS: PROHIBITED QUALIFICATIONS

No person subject to the prohibition contained in Section 12602 shall distribute or cause to be distributed in commerce any packaged commodity if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by Section 12603(b), but nothing in this chapter shall prohibit supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents: provided, that such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the commodity contained in the package.

In no case shall any declaration of quantity be qualified by the addition of the words “minimum”, or “when packed”, or words of similar import; nor shall any unit of weight, measure or count be qualified by any term (such as jumbo, giant, full, or the like) that tends to exaggerate the amount of the commodity in the package.

Added Stats 1969 ch 1309 § 3.

§ 12606. FALSE BOTTOM, ETC., PROHIBITED: CONTAINERS NOT TO BE NONFUNCTIONALLY SLACK FILLED: SEIZURE OF CONTAINER: CONDEMNATION OF CONTAINER: RETURN OF CONTENTS OF CONDEMNED CONTAINER

(a) No container wherein commodities are packed shall have a false bottom, false sidewalls, false lid or covering, or be otherwise so constructed or filled, wholly or partially, as to facilitate the perpetration of deception or fraud.

(b) No container shall be made, formed, or filled as to be misleading. A container that does not allow the consumer to fully view its contents shall be considered to be filled as to be misleading if it contains nonfunctional slack fill. Slack fill is the difference between the actual capacity of a container and the volume of product contained therein. Nonfunctional slack fill is the empty space in a package that is filled to less than its capacity for reasons other than the following:

- (1) Protection of the contents of the package.
- (2) The requirements of machines used for enclosing the contents of the package.

FAIR PACKAGING AND LABELING

- (3) Unavoidable product settling during shipping and handling.
- (4) The need to utilize a larger than required package or container to provide adequate space for the legible presentation of mandatory and necessary labeling information, such as those based on the regulations adopted by the Food and Drug Administration or state or federal agencies under federal or state law, laws or regulations adopted by foreign governments, or under an industry wide voluntary labeling program.
- (5) The fact that the product consists of a commodity that is packaged in a decorative or representational container where the container is part of the presentation of the product and has value that is both significant in proportion to the value of the product and independent of its function to hold the product, such as a gift combined with a container that is intended for further use after the product is consumed, or durable commemorative or promotional packages.
- (6) An inability to increase the level or fill or to further reduce the size of the package, such as where some minimum package size is necessary to accommodate required labeling, discourage pilfering, facilitate handling, or accommodate tamper-resistant devices.
- (7) The product container bears a reasonable relationship to the actual amount of product contained inside, and the dimensions of the actual product container, the product, or the amount of product therein is visible to the consumer at the point of sale, or where obvious secondary use packaging is involved.
- (8) The dimensions of the product or immediate product container are visible through the exterior packaging, or where the actual size of the product or immediate product container is clearly and conspicuously depicted on the exterior packaging, accompanied by a clear and conspicuous disclosure that the representation is the "actual size" of the product or the immediate product container.
- (9) The presence of any head space within an immediate product container necessary to facilitate the mixing, adding, shaking, or dispensing of liquids or powders by consumers prior to use.
- (10) The exterior packaging contains a product delivery or dosing device if the device is visible, or a clear and conspicuous depiction of the device appears on the exterior packaging, or it is readily apparent from the conspicuous exterior disclosures or the nature and name of the product that a delivery or dosing device is contained in the package.
- (11) The exterior packaging or immediate product container is a kit that consists of a system, or multiple components, designed to produce a particular result that is not dependent upon the quantity of the contents, if the purpose of the kit is clearly and conspicuously disclosed on the exterior packaging.

WEIGHTS AND MEASURES

(12) The exterior packaging of the product is routinely displayed using tester units or demonstrations to consumers in retail stores, so that customers can see the actual, immediate container of the product being sold, or a depiction of the actual size thereof prior to purchase.

(13) The exterior packaging consists of single or multi-unit presentation boxes of holiday or gift packages if the purchaser can adequately determine the quantity and sizes of the immediate product container at the point of sale.

(14) The exterior packaging is for a combination of one purchased product, together with a free sample or gift, wherein the exterior packaging is necessarily larger than it would otherwise be due to the inclusion of the sample or gift, if the presence of both products and the quantity of each product are clearly and conspicuously disclosed on the exterior packaging.

(15) The exterior packaging or immediate product container encloses computer hardware or software designed to serve a particular computer function, if the particular computer function to be performed by the computer hardware or software is clearly and conspicuously disclosed on the exterior packaging.

(c) Any sealer may seize a container that facilitates the perpetration of deception or fraud and the contents of the container. By order of the municipal or superior court of the city or county within which a violation of this section occurs, the containers seized shall be condemned and destroyed or released upon such conditions as the court may impose to insure against their use in violation of this chapter. The contents of any condemned container shall be returned to the owner thereof if the owner furnishes proper facilities for the return.

Repealed and Added Stats 1997 ch 711 §§ 1 and 2.

§ 12606.2. MISLEADING FOOD CONTAINERS, PROHIBITED

(a) This section applies to food containers subject to Section 403 (d) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. Sec. 343 (d)), and Section 100.100 of Title 21 of the Code of Federal Regulations. Section 12606 does not apply to food containers subject to this section.

(b) No food containers shall be made, formed, or filled as to be misleading.

(c) A container that does not allow the consumer to fully view its contents shall be considered to be filled as to be misleading if it contains nonfunctional slack fill. Slack fill is the difference between the actual capacity of a container and the volume of product contained therein. Nonfunctional slack fill is the empty space in a package that is filled to less than its capacity for reasons other than the following:

FAIR PACKAGING AND LABELING

- (1) Protection of the contents of the package.
- (2) The requirements of the machines used for enclosing the contents in the package.
- (3) Unavoidable product settling during shipping and handling.
- (4) The need for the package to perform a specific function, such as where packaging plays a role in the preparation or consumption of a food, if that function is inherent to the nature of the food and is clearly communicated to consumers.
- (5) The fact that the product consists of a food packaged in a reusable container where the container is part of the presentation of the food and has value that is both significant in proportion to the value of the product and independent of its function to hold the food, such as a gift product consisting of a food or foods combined with a container that is intended for further use after the food is consumed or durable commemorative or promotional packages.
- (6) Inability to increase the level of fill or to further reduce the size of the package, such as where some minimum package size is necessary to accommodate required food labeling exclusive of any vignettes or other nonmandatory designs or label information, discourage pilfering, facilitate handling, or accommodate tamper-resistant devices.

This section shall be interpreted consistent with the comments by the United States Food and Drug Administration on the regulations contained in Section 100.100 of Title 21 of the Code of Federal Regulations, interpreting Section 403(d) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. Sec. 343(d)), as those comments are reported on pages 64123 to 64137, inclusive, of Volume 58 of the Federal Register.

(d) If the requirements of this section do not impose the same requirements as are imposed by Section 403(d) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. Sec. 343(d)), or any regulation promulgated pursuant thereto, then this section is not operative to the extent that it is not identical to the federal requirements, and for this purpose those federal requirements are incorporated into this section and shall apply as if they were set forth in this section.

(e) Any sealer may seize any container that is in violation of this section and the contents of the container. By order of the municipal or superior court of the city or county within which a violation of this section occurs, the containers seized shall be condemned and destroyed or released upon any conditions that the court may impose to ensure against their use in violation of this chapter. The contents of any condemned container shall be returned to the owner thereof if the owner furnishes proper facilities for the return.

The regulations shall include exemptions from full compliance with this chapter for good and sufficient reasons. Any exemptions affecting consumer commodities shall be in conformance with exemptions permitted by federal regulations. Any regulation, or amendment thereof, shall be adopted by the director in conformity with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

1. Establish and define standards for characterization of the size of a package enclosing any commodity, which may be used to supplement the label statement of net quantity of contents of packages containing such commodity, but this paragraph shall not be construed as authorizing any limitation on the size, shape, weight, dimensions, or number of packages which may be used to enclose any commodity;
2. Require that the label on each package of a commodity (other than one which is a food within the meaning of Section 201(f) of the Federal Food, Drug, and Cosmetic Act) bear the common or usual name of such consumer commodity, if any.

Unit Pricing

§ 12655. Legislative intent to encourage unit pricing for canned, bottled, and packaged commodities

§ 12656. Adoption of standardized format

§ 12655. LEGISLATIVE INTENT TO ENCOURAGE UNIT PRICING FOR CANNED, BOTTLED, AND PACKAGED COMMODITIES

It is the intent of the Legislature to encourage the unit pricing of all canned, bottled, and packaged foods, packaged produce, and bakery goods; paper, plastic, wood, and metal products packaged in counts greater than 10; rolled paper, plastic, and metal products; canned, bottled, and packaged domestic, laundry and household cleansing, finishing, waxing, and polishing products; drug and first aid products canned, packaged, or bottled in counts greater than 10; and frozen fruits and vegetables, offered by merchants in their places of business for sale at retail to the public. The Legislature finds that unit pricing, the price per ounce, per pound, per gallon, or the metric equivalent thereof, or per 100 square feet, or per 100 count, for which those items are offered for sale at retail, effectively informs the consumer of the comparative prices and values of commodities, and is thus useful for the formulation of intelligent consumer choices. Reconstituted fluid ounce is the preferred unit of measure for unit pricing of powdered and concentrated infant formula.

Added Stats 1977 ch 380; Amended Stats 1994 ch 1157 § 1.

§ 12656. ADOPTION OF STANDARDIZED FORMAT

The department, in cooperation with the retail food industry, shall adopt a standardized format for unit pricing that shall be available to a retailer upon request. The format shall include, but not be limited to, an identification of the item, including the brand name, the total price of the item, the volume, weight, or number of units of which the item is composed, and the price per unit. For infant formula, unit price information may be expressed based on the reconstituted volume.

(a) The operator of a business establishment that uses a point-of-sale system to sell goods or services to consumers shall ensure that the price of each good or service to be paid by the consumer is conspicuously displayed to the consumer at the time that the price is interpreted by the system. In any instance in which the business advertises a price reduction or discount regarding an item offered for sale, the checkout system customer indicator shall display either the discounted price for that item, or alternatively, the regular price and a credit or reduction of the advertised savings. Any surcharges and the total value to be charged for the overall transaction also shall be displayed for the consumer at least once before the consumer is required to pay for the goods or services. The checkout system customer indicator shall be so positioned, and the prices and amounts displayed shall be of a size and form, as to be easily viewable from a typical and reasonable customer position at each checkout location.

(b) For the purposes of this section, "point-of-sale system" means any computer or electronic system used by a retail establishment such as, but not limited to, Universal Product Code scanners, price lookup codes, or an electronic price lookup system as a means for determining the price of the item being purchased by a consumer.

(c) All point-of-sale systems used by a business establishment on and after January 1, 2007, shall comply with the requirement of subdivision (a).

WEIGHTS AND MEASURES

§ 13302. CIVIL PENALTY FOR VIOLATION OF THIS CHAPTER

(a) The sealer may levy a civil penalty against a person violating any provision of this chapter or a regulation adopted pursuant to any of these provisions, of not more than one thousand dollars (\$1,000) for each violation. It is a complete defense to a criminal prosecution for a violation of any provision of this division or a regulation adopted pursuant to any provision of this division that the defendant has been assessed and has paid a civil penalty under this section for the same act or acts constituting the violation. Any civil penalty under this section shall be cumulative to civil remedies or penalties imposed under any other law.

(b) Before a civil penalty is levied, the person charged with the violation shall be given a written notice of the proposed action including the nature of the violation and the amount of the proposed penalty, and shall have the right to request a hearing. The request shall be made within 20 days after receiving notice of the proposed action. A notice of the proposed action that is sent by certified mail to the last known address of the person charged shall be considered received even if delivery is refused or the notice is not accepted at that address. If a hearing is requested, notice of the time and place of the hearing shall be given at least 10 days before the date set for the hearing. At the hearing, the person shall be given an opportunity to review the sealer's evidence and to present evidence on his or her own behalf.

If a hearing is not timely requested, the sealer may take the action proposed without a hearing.

(c) If the person upon whom the sealer levied a civil penalty requested and appeared at a hearing, the person may appeal the sealer's decision to the secretary within 30 days of the date of receiving a copy of the sealer's decision. The following procedures apply to the appeal:

(1) The appeal shall be in writing and signed by the appellant or his or her authorized agent, state the grounds for the appeal, and include a copy of the sealer's decision. The appellant shall file a copy of the appeal with the sealer at the same time it is filed with the secretary.

(2) The appellant and the sealer may, at the time of filing the appeal or within 10 days thereafter or at a later time prescribed by the secretary, present the record of the hearing including written evidence that was submitted at the hearing and a written argument to the secretary stating grounds for affirming, modifying, or reversing the sealer's decision.

(3) The secretary may grant oral arguments upon application made at the time written arguments are filed.

AUTOMATIC CHECKOUT SYSTEMS

(4) If an application to present an oral argument is granted, written notice of the time and place for the oral argument shall be given at least 10 days before the date set therefore. The times may be altered by mutual agreement of the appellant, the sealer, and the secretary.

(5) The secretary shall decide the appeal on the record of the hearing, including the written evidence and the written argument described in paragraph (2), that he or she has received. If the secretary finds substantial evidence in the record to support the sealer's decision, the secretary shall affirm the decision.

(6) The secretary shall render a written decision within 45 days of the date of appeal or within 15 days of the date of oral arguments or as soon thereafter as practical.

(7) On an appeal pursuant to this section, the secretary may affirm the sealer's decision, modify the sealer's decision by reducing or increasing the amount of the penalty levied so that it is within the secretary's guidelines for imposing civil penalties, or reverse the sealer's decision. Any civil penalty increased by the secretary shall not be higher than that proposed in the sealer's notice of proposed action given pursuant to subdivision (b). A copy of the secretary's decision shall be delivered or mailed to the appellant and the sealer.

(8) Any person who does not request a hearing pursuant to subdivision (b) may not file an appeal pursuant to this subdivision.

(9) Review of a decision of the secretary may be sought by the appellant within 30 days of the date of the decision pursuant to Section 1094.5 of the Code of Civil Procedure.

(d) After the exhaustion of the appeal and review procedures provided in this section, the sealer, or his or her representative, may file a certified copy of a final decision of the sealer that directs the payment of a civil penalty and, if applicable, a copy of any decision of the secretary or his or her authorized representative rendered on an appeal from the sealer's decision and a copy of any order that denies a petition for a writ of administrative mandamus, with the clerk of the superior court of any county. Judgment shall be entered immediately by the clerk in conformity with the decision or order. No fees shall be charged by the clerk of the superior court for the performance of any official service required in connection with the entry of judgment pursuant to this section.

(e) If the civil penalty is levied by the State Sealer, the revenues derived therefrom shall be deposited in the Department of Food and Agriculture Fund and, upon appropriation, shall be used by the State Sealer to carry out his or her responsibilities under this division. If the civil penalty is levied by the county sealer, the revenues shall be deposited in the general fund of the county and, upon appropriation by the board of supervisors, shall be used by the county sealer to carry out his or her responsibilities under this chapter.

§ 13350. INITIAL STANDARD INSPECTION PROCEDURE: INSPECTION FEES

(a) The board of supervisors of any county or city and county that has adopted or that adopts an ordinance for the purposes of determining the pricing accuracy of a retail establishment using a point-of-sale (POS) system, shall base the initial standard inspection of the POS system on the following criteria:

(1) The initial standard inspection shall be performed by collecting a random sample of items that shall include a maximum of 50 percent sale items from either:

- (i) One department of a retail store.
- (ii) Multiple areas of a retail store.
- (iii) The entire store.

(2) The initial standard inspection shall be performed by testing a minimum random sample of 10 items for a retail establishment with three or fewer POS checkout registers.

(3) The initial standard inspection shall be performed by testing a minimum random sample of 25 items for a retail establishment with 4 to 9 POS checkout registers.

(4) The initial standard inspection shall be performed by testing a minimum random sample of 50 items for retail establishments with 10 or more POS checkout registers.

(5) The sealer shall verify that the lowest advertised, posted, marked, displayed, or quoted price is the same as the price displayed or computed by the point-of-sale equipment or printed receipt. Only items computed at a higher price than the lowest advertised, posted, marked, displayed, or quoted price shall be considered not in compliance.

(6) The minimum random sample size shall not apply to inspections of any establishment at which fewer items than the number specified as the minimum sample size are marked or displayed with a posted or advertised item price.

WEIGHTS AND MEASURES

(7) The maximum percentage of sale item restriction in paragraph (1) shall not apply to inspections of any establishment at which a marketing or promotional practice does not enable the sampling of the minimum required percentage of nonsale items, such as "Everything In Store 50 percent Off" or the like.

(8) The compliance rate percentage of a retail establishment shall be determined by dividing the number of items in compliance by the sample size multiplied by 100.

(b) Enforcement action may be taken for any item not in compliance.

(c) The sealer may reinspect any retail facility that has a compliance rate of less than 98 percent.

(d) The board of supervisors, by ordinance, may charge a point-of-sale system inspection fee or an annual registration fee, not to exceed the county's total cost of inspecting or testing the accuracy of prices accessed or generated by the system pursuant to this section.

(e) The board of supervisors, by ordinance, may charge a reinspection fee for reinspections of a retail establishment that fails the prior inspection, not to exceed the county's total cost of reinspecting or testing the accuracy of prices accessed or generated by the system pursuant to this section.

§ 13410. PURCHASES BY GOVERNMENTAL ENTITIES

(a) No person who is engaged in the business of extracting oil or gas from lands within the State, or of refining gasoline for sale within the State, may refuse to sell to any city or county sufficient quantities of his petroleum products for the essential services provided by such city or county.

(b) The board of supervisors of a county or its designated county agency, upon application for the purchase of petroleum products to perform essential services by a city within that county, by any agency of such city or county which performs an essential service, or by any transit district created pursuant to law, may arrange for such purchase and shall apportion the purchase among all persons specified in subdivision (a) who engage in the sale of petroleum products within that county. The board of supervisors or its designated county agency shall, to the extent possible, apportion the total purchase of the petroleum product on the basis of such persons' sales of such petroleum product in the county during the most recent 90-day period for which information is available.

(c) For the purposes of this section, "essential services" means police, fire, health, and transportation services provided by public agencies.

§ 13411. SALE OF PETROLEUM PRODUCTS CONTINGENT UPON ADDITIONAL PURCHASE

(a) Except as specified in subdivision (b), it is unlawful for any person to sell or offer to sell petroleum products for use in any vehicle, as the term vehicle is defined by the Vehicle Code, on the condition that the purchaser also must purchase or pay for any other products, merchandise, or services.

WEIGHTS AND MEASURES

(b) Notwithstanding subdivision (a), a person who operates a full service car wash facility may sell or offer to sell petroleum products for use in a vehicle on the condition that the purchaser also must purchase car wash services, provided that all of the following conditions are met:

(1) The full service car wash facility, during the base period, as a normal business practice sold gasoline or other motor fuels only to customers who purchased car wash services.

(2) The retail price for car wash services charged by the facility during any given month does not exceed the retail price for car wash services charged by the facility during the last month of the base period except by an amount equivalent to that which is produced by multiplying the retail price charged for car wash services during the last month of the base period by the percentage by which the figure representing the California Consumer Price Index as compiled and reported by the California Department of Industrial Relations has increased in the period beginning with the last month of the base period and ending with the given month.

(3) The full service car wash facility sells or offers to sell in conjunction with the car wash services not less than ten gallons of gasoline with each purchase of such car wash services.

(4) The full service car wash facility when conditioning the sale of gasoline upon the purchase of car wash services posts in a conspicuous manner as close to the entrance to the facility as is permitted by local ordinance a sign in letters not less than six inches in height which effectively states that the purchaser must purchase car wash services in order to purchase gasoline.

(c) For the purpose of this section, the following terms shall have the following meanings:

(1) "Base period" refers to either the year of 1977, 1978, or 1979, whichever year is selected by the current operator of a full service car wash facility subject to this section. Once the operator of a full service car wash facility has selected one of these years as a base period the operator or any subsequent purchaser of the facility may utilize no other year as a base period for the purposes of this section. If the full service car wash facility was not in operation during 1977, 1978, or 1979, the base period shall be the first full calendar year in which the facility is in operation.

(2) "Full service car wash facility" means a facility which, during the base period, sold or offered to sell full service car wash services and the service of waxing the exterior of a vehicle by hand and at the same time and location sold or offered to sell gasoline.

(3) "Full service car wash services" means the cleaning of the exterior of a vehicle, by means of mechanical devices or mechanical devices and individuals, the drying

of the exterior of a vehicle, and the cleaning, including vacuuming, of the interior of a vehicle.

(4) "Practice" means a repeated or customary action as verified by business records or other admissible evidence.

(d) In any civil action brought pursuant to Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of this code for a violation of this section by a person who operates a full service car wash facility or his or her employees or agents, the person who operates the full service car wash facility shall have the burden of proof with respect to establishing compliance with the provisions of this section.

(e) Any person who elects to operate a full service car wash facility pursuant to subdivision (b) shall maintain records to substantiate that the person has complied with the provisions of paragraphs (1), (2), and (3) of subdivision (b) and shall permit the district attorney of the county in which the full service car wash facility is located and any authorized representative of a governmental agency which is authorized under state law to enforce the provisions of this section to inspect such records during normal business hours.

(f) Notwithstanding the provisions of Section 13590, the district attorney of each county shall enforce the provisions of this section.

(g) The provisions of subdivisions (b) to (e), inclusive, shall apply only during periods when the maximum retail price which may be charged for gasoline sold by any person in this state is established by the federal or state government, or any department, agency, board, or other entity thereof.

- (f) Representing that the consumer will receive a rebate, discount, or other economic benefit and then failing to give that rebate, discount, or other economic benefit.
- (g) Except as otherwise permitted, selling a grade of motor fuel at more than one price and advertising only the lower price without advertising each of the higher prices in equal size numerals on the same advertising medium.
- (h) Placing letters, words, figures, or numerals on any advertising medium offering for sale any goods or merchandise, other than motor fuel, if the advertising medium may be construed by any reasonable person as advertising a price of motor fuel.

Fuel Delivery Temperature Study

§ 13630. FUEL DELIVERY TEMPERATURE STUDY

(a) The California Energy Commission in partnership with the Department of Food and Agriculture and the State Air Resources Board shall conduct a comprehensive survey and cost-benefit analysis, as follows:

(1) The department shall conduct a survey on the effect of temperatures on fuel deliveries. The survey shall be conducted during routine dispenser inspections by determining the accuracy of fuel delivery, and recording fuel temperature, air temperature, and storage tank temperature at fuel stations and other fuel facilities subject to inspection. It is the intent of the Legislature that the department use data collected by the survey that the department started on April 1, 2007, and will complete on March 31, 2008.

(2) The department shall transmit the results of the survey to the California Energy Commission, which shall conduct a cost-benefit analysis and comparison of various options relative to temperature-corrected gallonage temperatures for the following:

(A) Retaining the current reference temperature of 60 degrees Fahrenheit.

(B) Establishing a different statewide reference temperature.

(C) Establishing different regional reference temperatures for the state.

(D) Requiring the installation of temperature correction or compensation equipment at the pump.

(b) The commission shall evaluate how different reference temperatures or temperature correction devices apply to alternative fuels and low-carbon fuel standards.

(c) The California Energy Commission shall convene an advisory group no later than January 25, 2008, including, but not limited to, equipment manufacturers, consumer groups, fuel industry representatives, agricultural commissioners, appropriate government agencies, and other interested parties to provide guidance on the study pursuant to this section and provide guidance on the analysis and recommendations.

(d) The California Energy Commission, in partnership with the Department of Food and Agriculture and the State Air Resources Board, shall conduct public hearings on the results of the cost-benefit analysis and report to the Legislature regarding recommended legislation and regulations based on the results of the study not later than December 31, 2008.

§ 13650. “SERVICE STATION”

“Service station”, as used in this chapter, means any establishment which offers for sale or sells gasoline or other motor vehicle fuel to the public.

Added Stats 1984 ch 1561.

§ 13651. PROVISION OF AIR, WATER, AND PRESSURE GAUGE

- (a) (1) On and after January 1, 2000, every service station in this state shall provide, during operating hours, and make available at no cost to customers who purchase motor vehicle fuel, water, compressed air, and a gauge for measuring air pressure, to the public for use in servicing any passenger vehicle, as defined in Section 465 of the Vehicle Code, or any commercial vehicle, as defined in Section 260 of the Vehicle Code, with an unladen weight of 6,000 pounds or less.
- (2) Every service station in this state shall display, at a conspicuous place on, at, or near the dispensing apparatus, at least one clearly visible sign which shall read as follows:

“CALIFORNIA LAW REQUIRES THIS STATION TO PROVIDE FREE AIR AND WATER FOR AUTOMOTIVE PURPOSES TO ITS CUSTOMERS WHO PURCHASE MOTOR VEHICLE FUEL. IF YOU HAVE A COMPLAINT NOTIFY THE STATION ATTENDANT AND/OR CALL THIS TOLL-FREE TELEPHONE NUMBER: 1 (800)_____.”

This sign shall meet the requirements of Sections 13473 and 13474 with regard to letter size and contrast. As used in this paragraph, automotive purposes does not include the washing of vehicles.

WEIGHTS AND MEASURES

- (b) (1) On and after January 1, 1990, every service station in this state located within 660 feet of an accessible right-of-way of an interstate or primary highway, as defined in Sections 5215 and 5220, shall provide, during business hours, public restrooms for use by its customers. Service stations shall not charge customers separately for the use of restroom facilities.
- (2) The public restroom shall not be temporary or portable but shall be permanent and shall include separate facilities for men and women, each with toilets and sinks suitable for use by disabled persons in accordance with Section 19955.5 of the Health and Safety Code and Title 24 of the California Code of Regulations. However, a service station not located along an interstate highway and in a rural area, as defined by Section 101 of Title 23 of the United States Code, and where the annualized average daily traffic count is 2,500 vehicles or less, is only required to provide a single restroom to be used by both men and women unless the local legislative body or, upon designation by the local legislative body, the local building official determines and finds, based upon traffic studies and local or seasonal tourist patterns, that a single restroom would be inadequate to serve the public. In that event, the single restroom exemption shall not apply. The single restroom shall contain a toilet, urinal, and sink suitable for use by disabled persons as required by the Americans With Disabilities Act and Title 24 of the California Code of Regulations. The single restroom shall be equipped with a locking mechanism to be operated by the user of the restroom and the restroom shall be maintained in a clean and sanitary manner.
- (3) This subdivision does not apply to service stations that are operational prior to January 1, 1990, and that would be obligated to construct permanent restroom facilities to comply with this subdivision.
- (4) For the purposes of this subdivision, "customer" means a person who purchases any product available for sale on the premises of the service station, including items not related to the repairing or servicing of a motor vehicle.
- (c) Every service station in this state shall display, at a conspicuous place on, at, or near the dispensing apparatus or at or near the point of sale, at least one clearly visible sign showing a list of applicable state and federal fuel taxes per gallon of motor vehicle fuel sold from the dispensing apparatus. The sign may display the federal excise tax rate as "up to \$.184".
- (d) (1) The Division of Measurement Standards of the Department of Food and Agriculture shall, no later than January 1, 2001, establish a toll-free customer complaint telephone number. The toll-free telephone number thereby established shall be printed on the sign required pursuant to paragraph (2) of subdivision (a).

SERVICE STATIONS

(2) Notwithstanding any other provision of law, employees of the Division of Measurement Standards, upon inspection, or upon notice of a complaint forwarded pursuant to this section, are empowered to investigate a complaint against a service station for lack of free air and water and issue a citation to the station, and to collect a fine of two hundred fifty dollars (\$250) per valid complaint, unless the citation is challenged in court. No citation shall be issued if the air and water equipment is in good working order upon initial inspection, or if they are repaired to the satisfaction of the inspecting entity within 10 working days of the initial inspection. In addition, no citation based on nonfunctional air and water equipment shall be issued if the service station can establish that the equipment has been the target of repeated vandalism, substantiated by three or more police reports within six months detailing the vandalism.

§ 13652. PUNISHMENT FOR INTENTIONAL VIOLATIONS: COMPLIANCE AFTER RECEIVING NOTICE

(a) Any person who intentionally violates any provision of this chapter or any regulation promulgated pursuant thereto is guilty of an infraction, and, upon conviction, shall be punished by a fine not to exceed fifty dollars (\$50) for each day that the person violates the provision or regulation.

(b) The failure of an owner or manager of a service station to have adequate water and air facilities available for use by the public, or to provide permanent public restrooms for use by its customers, as required by subdivision (b) of Section 13651, for five consecutive working days, constitutes a rebuttable presumption affecting the burden of proof that the owner or manager has intentionally violated this chapter. This subdivision does not apply to restrooms rendered inoperable as a result of vandalism or plumbing problems that may not be readily repaired.

(c) Notwithstanding any other provision of this chapter, no person shall be guilty of the infraction specified in subdivision (a) if that person, within seven days after receiving notification from the city attorney, district attorney, or Attorney General of any violation of this chapter, makes whatever changes are necessary to comply with the requirements of this chapter.

(b) Any person or entity specified in subdivision (a) that operates a service station shall be exempt from this section during hours when:

(1) Only one employee is on duty.

(2) Only two employees are on duty, one of whom is assigned exclusively to the preparation of food.

As used in this subdivision, the term "employee" does not include a person employed by an unrelated business that is not owned or operated by the entity offering motor vehicle fuel for sale to the general public.

(c) (1) Every person, firm, partnership, association, trustee, or corporation required to provide refueling service for persons with disabilities pursuant to this section shall post the following notice, or a notice with substantially similar language, in a manner and single location that is conspicuous to a driver seeking refueling service:

"Service to Disabled Persons

Disabled individuals properly displaying a disabled person's plate or placard, or a disabled veteran's plate, issued by the Department of Motor Vehicles, are entitled to request and receive refueling service at this service station for which they may not be charged more than the self-service price."

SERVICE STATIONS

(2) If refueling service is limited to certain hours pursuant to an exemption set forth in subdivision (b), the notice required by paragraph (1) shall also specify the hours during which refueling service for persons with disabilities is available.

(3) Every person, firm, partnership, association, trustee, or corporation that, consistent with subdivision (b), does not provide refueling service for persons with disabilities during any hours of operation shall post the following notice in a manner and single location that is conspicuous to a driver seeking refueling service:

“No Service for Disabled Persons

This service station does not provide refueling service for disabled individuals.”

(4) The signs required by paragraphs (1) and (3) shall also include a statement indicating that drivers seeking information about enforcement of laws related to refueling services for persons with disabilities may call one or more toll-free telephone numbers specified and maintained by the Department of Rehabilitation. By January 31, 1999, the Director of the Department of Rehabilitation shall notify the State Board of Equalization of the toll-free telephone number or numbers to be included on the signs required by this subdivision. At least one of these toll-free telephone numbers shall be accessible to persons using telephone devices for the deaf. The State Board of Equalization shall publish information regarding the toll-free telephone numbers as part of its annual notification required by subdivision (i). In the event that the toll-free telephone number or numbers change, the Director of the Department of Rehabilitation shall notify the State Board of Equalization of the new toll-free telephone number or numbers to be used.

(d) During the county sealer’s normal petroleum product inspection of a service station, the sealer shall verify that a sign has been posted in accordance with subdivision (c). If a sign has not been posted, the sealer shall issue a notice of violation to the owner or agent. The sealer shall be reimbursed, as prescribed by the department, from funds provided under Chapter 14. If substantial, repeated violations of subdivision (c) are noted at the same service station, the sealer shall refer the matter to the appropriate local law enforcement agency.

(e) The local law enforcement agency shall, upon the verified complaint of any person or public agency, investigate the actions of any person, firm, partnership, association, trustee, or corporation alleged to have violated this section. If the local law enforcement agency determines that there has been a denial of service in violation of this section, or a substantial or repeated failure to comply with subdivision (c), the agency shall levy the fine prescribed in subdivision (f).

WEIGHTS AND MEASURES

(f) Any person who, as a responsible managing individual setting service policy of a service station, or as an employee acting independently against the set service policy, acts in violation of this section is guilty of an infraction punishable by a fine of one hundred dollars (\$100) for the first offense, two hundred dollars (\$200) for the second offense, and five hundred dollars (\$500) for each subsequent offense.

(g) In addition to those matters referred pursuant to subdivision (e), the city attorney, the district attorney, or the Attorney General, upon his or her own motion, may investigate and prosecute alleged violations of this section. Any person or public agency may also file a verified complaint alleging violation of this section with the city attorney, district attorney, or Attorney General.

(h) Enforcement of this section may be initiated by any intended beneficiary of the provisions of this section, his or her representatives, or any public agency that exercises oversight over the service station, and the action shall be governed by Section 1021.5 of the Code of Civil Procedure.

(i) An annual notice setting forth the provisions of this section shall be provided by the Board of Equalization to every person, firm, partnership, association, trustee, or corporation that operates a service station.

(j) A notice setting forth the provisions of this section shall be printed on each disabled person's placard issued by the Department of Motor Vehicles on and after January 1, 1999. A notice setting forth the provisions of this section shall be provided to each person issued a disabled person's or disabled veteran's plate on and after January 1, 1998.

(k) For the purposes of this action "refueling service" means the service of pumping motor vehicle fuel into the fuel tank of a motor vehicle.
