

Acknowledgements

Climate Change Consortium:

The Climate Change Consortium is a group of growers, researchers, and representatives from industry that came together to evaluate and identify potential climate change adaptation strategies. CDFA thanks the Climate Change Consortium members listed below for volunteering their time to this effort:

Jocelyn Gretz, Rio Farms
Jason Gurdak, San Francisco State University
Claire Kremen, University of California at Berkeley
Russ Lester, Dixon Ridge Farms
Tony Linegar, Sonoma County Agricultural Commissioner
David Lucas, The Lucas Winery and Vineyards
Bill McKinney, Almond Board of California
Kate Meis, Local Government Commission
Ken Melban, California Avocado Commission
Jeanne Merrill, California Climate & Agriculture Network (CalCAN)
Natalia Neerdaels, Driscolls Strawberry Associates
Joel Nelsen, California Citrus Mutual
George Nikolich, Gerawan Farming, Inc
Clifford Ohmart, SureHarvest
Doug Parker, University of California, California Institute for Water Resources
Alain Pincot, Bonipak / Betteravia Farms
James Pushnik, California State University, Chico
Chuck Rivara, California Tomato Research Institute
Timothy Schmelzer, The Wine Institute
Thomas Wehri, California Association Resource Conservation Districts
Gene Zannon, Santa Barbara Pistachio Company

Consultants:

CDFA would like to thank Jodie Monaghan from the Center of Collaborative Policy, California State University, Sacramento, for facilitating the Climate Change Consortium meeting and providing valuable input into the final report.

Guest Speakers and Subject Matter Experts:

CDFA thanks the many research scientists and subject matter experts for their time, expertise, and willingness to share their research findings and knowledge on assisting and informing the Climate Change Consortium in this effort.

Emily Allen, Hedgerow Farms
Michael Anderson, California Department of Water Resources
Maximilian Auffhammer, University of California, Berkeley
Dennis Baldocchi, University of California, Berkeley
Roger Bales, University of California, Merced
Mark Battany, University of California Cooperative Extension
Céline Bonfils, Lawrence Livermore National Laboratory
Charles Burt, Cal Poly Irrigation Training and Research Center
Dan Cayan, Scripps Institution of Oceanography
V Ryan Haden, University of California, Davis
Ryan Hayes, USDA Agricultural Research Service
Louise Jackson, University of California, Davis
Doug Johnson, California Invasive Plant Council
Claire Kremen, University of California, Berkeley
Mark Matthews, University of California, Davis
Nick Mills, University of California, Berkeley
Monobina Mukherjee, University of California, Riverside
Josué Medellín-Azuara, University of California, Davis
Emily Paddock, Driscoll Strawberry Associates, Inc
Doug Parker, California Institute for Water Resources
Katherine Pope, University of California, Davis
Romina Rader, Stockholm University
Pamela Ronald, University of California, Davis
Lucinda Roth, USDA Natural Resources Conservation Service
Gregg Sanford, University of Wisconsin
Erin Silva, University of Wisconsin
John Trumble, University of California, Riverside
Kirk Visscher, University of California, Riverside
Kenong Xu, Cornell University
