Your application for a license to sell nursery stock indicates that you may produce or sell fruit trees, olive trees and/or grapevines.

If you produce deciduous pome or stone fruit tree, olive tree, nut tree, or grapevine nursery stock, including grafted plants, you must pay an annual assessment of one percent (1%) of the gross sales made of such nursery stock in your most recently completed ***fiscal*** year. The attached IAB Assessment Determination Worksheet (Attachment 2) ***must be completed and returned annually*** whether or not an assessment payment is owed. This assessment applies to fruit bearing, as well as ornamental pome and stone fruit trees, except for varieties specifically exempted (varieties listed on Attachment 1).

The assessment applies to wholesale and retail sales by producers but does not apply to retailers. For packaged or containerized stock, the assessment is levied on the producer's bareroot price of plants.
