## TO WEIGHTS AND MEASURES OFFICIALS

## SUBJECT: Statewide Automated Checkstand (Scanner) Survey

The 2002 statewide scanner survey was completed in December. This was a follow-up to prior surveys and allows us to evaluate the changes in compliance conditions that have occurred over the previous years. Continued interest and participation by county jurisdictions in this survey is very much appreciated.

Survey results indicate that of 14,763 items purchased, $2.38 \%$ were overcharged and $1.46 \%$ were undercharged (see Table 1). An aggregate algebraic overcharge amounted to $0.03 \%$ of the dollars spent (see Table 2). Of the 494 stores inspected, $58.7 \%$ had no overcharges. This is a slight reduction in compliance from prior surveys (see Table 3). All three levels of non-compliance show an increase in the number of stores with overcharge violations when compared to the 2000 survey.

The attachment outlines survey criteria and displays the results, by type of store, along with a comparison to the results of the last five surveys.

Please review the attached report and contact Ken Lake, Program Supervisor, Measurement Compliance, at (916) 229-3047 if you have any questions.

Sincerely,

## Mike Cleary

Director
(916) 229-3000

## DIVISION OF MEASUREMENT STANDARDS

## STATEWIDE AUTOMATED CHECKSTAND (SCANNER) SURVEY

A statewide survey of establishments using automated pricing (scanner) systems was conducted throughout the state during November and December of 2002.

## Scope of Survey

Establishments surveyed included both food and nonfood retail stores with centralized checkstands using a device to scan a code or a coded entry to determine sales price.

## Sample Selection

Five hundred (500) establishments were selected at random from a statewide population of approximately 19,000 establishments.

## Inspection Procedure

Thirty (30) items were randomly selected from each establishment. Approximately half of the items selected were sale items, price reduced or "special buys", including manufacturers' reduced price items, in-store specials or markdowns. After selecting the sample, the items were run through the automated pricing system (scanner) and the prices charged for the items were compared with the advertised, quoted, posted or marked prices. If the price charged for an item was more than the lowest of the advertised, quoted, posted or marked price, it was determined that an overcharge existed. If the price charged was less than the lowest of the advertised, quoted, posted or marked price, it was determined that an undercharge existed. If the price charged equaled the lowest of the advertised, quoted, posted or marked price, it was determined that no error existed.

## Survey Results

The following tables summarize the survey results in comparison to the 1992, 1994, 1996, 1998, and 2000 surveys. These results may be useful for county weights and measures officials in determining which areas of the marketplace to focus enforcement activity.

TABLE 1

| TYPE OF STORE |  | NUMBER OF ITEMS INSPECTED | OVERCHARGES |  | UNDERCHARGES |  |

## STATEWIDE SCANNING SURVEY COMPARED TO STATE ENFORCEMNET PENALTY GUIDELINES

* LEVEL ONE: One or two overcharges (less than 10\% of items inspected) and the total algebraic overcharge (total $\$$ value of overcharges minus total $\$$ value of undercharges) is less than $2 \%$ of the correct total price. This is considered to be a minor violation, usually resulting in a Notice of Violation being issued and the establishment remaining on its current inspection frequency.
** LEVEL TWO: Three overcharges (10\% up to but not including $12 \%$ of items inspected), or the total algebraic overcharge is $2 \%$ or more but less than $4 \%$ of the correct total price. This is considered to be a significant violation, usually resulting in a Notice of Violation being issued and the establishment being subject to more frequent inspections.

If the establishment is already on an increased frequency as a result of previous violations, additional enforcement action such as being issued a Notice to Appear (court citation) is appropriate.
*** LEVEL THREE: Four or more overcharges (12\% or more of items inspected), or the total algebraic overcharge is $4 \%$ or more of the correct total price, or if the violation is willful or grossly negligent. This is considered to be a serious violation, usually resulting in enforcement action such as being issued a Notice to Appear (court citation) and being subject to more frequent inspections.
