

# California Poultry Farm Premises Biosecurity Plan Template

# A. General Premises Description

Premises are required to have a National Premises Identification Number (NPIN) for permitting, sampling, and surveillance in the event of a foreign animal disease (FAD)/notifiable animal disease (NAD) outbreak.

**Premises Property Line** is defined as the legal property boundary. This may or may not be fenced. The premises property line will form the outer edge of the premises/property.

An **Access Point** is any point where access is controlled. Access points can be used for crossing into or out of the premises property line, the Perimeter Buffer Area (PBA), or a Line of Separation (LOS).

NPIN:

Premises GPS Coordinates:

Premises address:

## 1. Operation Description:

A-1.1. Premises type:

A-1.2. Organic designation: Yes  No

## 2. Animals and Houses:

A-2.1. Species and estimated number of animals in each species:

Species of birds	Breeder Birds (Y/N)	Number of birds on premises at any one time	Total number of birds raised per year (includes replacement flocks)

A-2.2. Animal housing type(s):

A-2.3. Number of houses and/or pastures on this premises:

A-2.4. Number of Biosecure Units:

### 3. Location:

**A-3.1. Provide a general description of the geographic location** (municipality, surrounding public roads and neighboring properties). Specify what is located to the north, south, east, and west.

### 4. Premises Property Line:

The premises property line is the legal outermost property boundary. For some premises the, premise property line serves as the perimeter for the PBA. The premises property line should be identifiable by using an address marker, signs, fencing or geographic markers.

**A-4.1. Describe the premises property line. Make sure to include the type of fencing, gates, natural barriers, or geographic markers used to identify and distinguish the premises from neighboring properties. Include all vehicle/pedestrian Access Points used to access the premises. Label the premises property line on the map in Section 3.**

**A-4.2. List and describe any other business located on the property, such as but not limited to an egg store, vegetable stand, rented space, sale of feed/fertilizer. If none, write N/A:**

**A-5.2. Please complete the following table with all requested information on Service Providers:**

Type of Service	Provider Name	Provider Phone	Provider Address
<b>Feed Hauler</b>			
<b>Manure Hauler</b>			
<b>Litter Hauler/Source</b>			
<b>Trash Hauler</b>			
<b>Landfill</b>			
<b>Dead Hauler</b>			
<b>Renderer</b>			
<b>Pest Control</b>			
<b>Other:</b>			
<b>Other:</b>			

**6. Premises Disinfectants:**

**A-6.1. Please complete the following table with all requested information on Disinfectants used on the premises:**

Purpose of Disinfectant	Disinfectant Name (first choice)	Disinfectant Name (back up choice)
<b>Foot Bath</b>		
<b>Vehicle C&amp;D</b>		
<b>Equipment C&amp;D</b>		

## B. Biosecurity Requirements

---

### 1. Biosecurity Responsibility

*The designated **Biosecurity Manager** is an individual who has been assigned to develop and implement biosecurity procedures for the premises. For large poultry premises, a **Biosecurity Coordinator** can be designated at the company level and designees assigned at the farm level. Designation of a Biosecurity Manager or Coordinator and an alternate designee who are knowledgeable and practiced in biosecurity principles and procedures ensures a farm has an appointee responsible for the implementation of biosecurity practices, training of personnel, and someone to serve as the contact for outside agencies.*

---

#### **General Requirements:**

- The Biosecurity Manager or Coordinator is responsible for developing and implementing the site-specific biosecurity plan as well as evaluating and revising the premises biosecurity plan at least once during each calendar year and whenever there are changes in the premises that may affect the compliance with the plan. Revised plans will need to be reviewed and approved by the program regulatory agency if significant changes are made, at the time of audit, or at the time of activation (Enhanced Biosecurity Plan).
- The Biosecurity Manager or Coordinator is responsible for maintaining records of biosecurity plan reviews and edits.
- The Biosecurity Manager or Coordinator must be trained in the principles of biosecurity. Additionally, the Biosecurity Manager and/or Coordinator must complete refresher training as required by the biosecurity programs within which your company is certified.
- The Biosecurity Manager must complete and maintain records of their continuing education biosecurity training.

In the event of an animal disease outbreak, the Biosecurity Manager, Coordinator, or Designee will:

- Review the entire Biosecurity Plan to ensure accuracy with current operations.
- Activate and manage the site-specific enhanced biosecurity requirements of this plan during an FAD/NAD outbreak.
- Inform individuals entering the premises of the biosecurity protocols they are to follow in a language they understand.
- Implement corrective actions to the site-specific Enhanced Biosecurity Plan and procedures as required by regulatory officials, the Incident Management Team (IMT), or their designee.

**B-1.1 List the names and contact information for the Biosecurity Manager, the Designee, and the Biosecurity Coordinator if appropriate to the premises biosecurity management.**

	Biosecurity Manager	Biosecurity Manager Designee	Biosecurity Coordinator (optional)
Name			
Phone			
Email			

**B-1.2 Describe the Biosecurity Manager’s, Coordinator’s and/or Designee’s relevant training and experience:**
