

**LIST OF REPORTABLE CONDITIONS FOR ANIMALS AND ANIMAL PRODUCTS\***

\*Pursuant to Section 9101 of the California Food and Agricultural Code, Title 3 California Code of Regulations § 797 and Title 9 Code of Federal Regulations Section 161.4(f)

**WHO MUST REPORT:** Any licensed veterinarian, any person operating a diagnostic laboratory, or any person who has been informed, recognizes or should recognize by virtue of education, experience, or occupation, that any animal or animal product is or may be affected by, or has been exposed to, or may be transmitting or carrying any of the following conditions, must report that information.

**WHAT TO REPORT:** Immediately report any animal disease not known to exist in the United States, any event with increased mortality and/or morbidity of unknown cause or source and any toxicology condition likely to contaminate animals or animal products (meat, milk or eggs).

**CALL IF YOU SEE: high morbidity or mortality, vesicles, CNS signs, uncommon ticks, hemorrhagic septicemias, unusual larvae in wounds, unusual or unexplained illness.**

Report any emergency, regulatory, or monitored condition within the provided time frame. Some diseases are listed under the major species of concern; if you see compatible signs for such conditions in another species, please report!

| <b>EMERGENCY CONDITIONS</b><br>Report within 24 Hours of Discovery  | <b>REGULATORY CONDITIONS</b><br>Report within Two Days of Discovery  | <b>MONITORED CONDITIONS</b><br>Report within 30 Days of Discovery  |                     |                |                     |               |                     |                |                     |   |
