

# CDFA Border Protection Stations

Shell Egg Advisory Meeting  
March 2021

# A BRIEF HISTORY OF THE BPS PROGRAM

- Due to its richness of land and climate, CA offers year-round production for a great variety of agricultural crops.
- Geological barriers including mountains to the north and east, deserts in the south, and ocean to the west, provide CA a natural barrier for non-native pest introduction.
- As automobiles became the more preferred method of travel, non-native pests found a pathway through these natural barriers now threatening CA's agriculture.
- The Border Station Program was established in 1921 as the first line of defense against these unwanted pests.

# The Early Days

According to his notes, Earl Swift, the first border quarantine inspector, left Sacramento on 6:00 a.m. on June 24, 1921 with Lee Stronger, former Assistant Director of the Department, arriving in Reno at 4:00 p.m. On June 25<sup>th</sup> they visited alfalfa fields near Sparks and returned to Truckee that night. On June 26, Swift started patrolling the Dog Valley Road out of Truckee, checking traffic for alfalfa weevils which could be carried in bedrolls and other camping equipment. He worked alone through July 21. McKinley arrived on July 22 and became Swift's assistant.

CDFA's The First 100 Years

"The wisdom of inaugurating automobile inspection was demonstrated by the finding of live alfalfa weevils in campers' equipment arriving in California from the infested area"

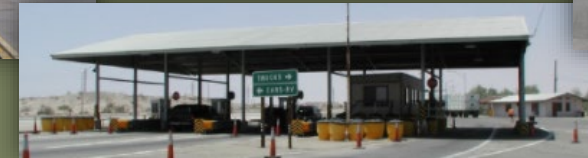

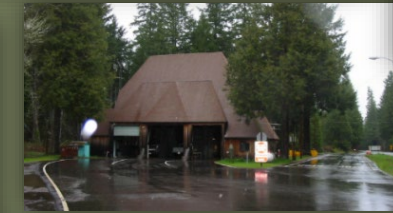

CDFA's The First 100 Years

# Today

- BPS have evolved from roadside checkpoints conducted on the hood of a Model-A, to state-of-the-art inspection facilities.
- There are now 16 Border Stations throughout CA on all major highways and interstates.
- Covering the borders of OR, NV, & AZ.

# Border Stations Inspect:

- Fruit & Vegetables
- Nursery Stock
- Plant Debris
- Firewood/Logs/Old Barnwood
- Soil/Mulch/SOD
- Hay (Alfalfa, Straw, etc.)
- Seeds for planting
- Grain
- Noxious Weeds
- Outdoor Household Articles
- Apiary (Honeybees)

# Cooperative Activities:

- Used Beverage Containers - CalRecycle
- Use Tax – CDTFA
- IFTA Stickers - CDTFA
- Tobacco Products - DOJ
- Aquatic Invasive Species – Fish & Wildlife
- Wild Game & Restricted Animals – Fish & Wildlife
- Livestock – Animal Health
- Firework Interdictions - CalFire
- Industrial Hemp – Industrial Hemp Program
- Shell & Liquid Eggs - ESQM

# BORDER STATIONS' ROLE IN PROCESSING EGG SHIPMENTS
