

Licensed Bottled Raw Milk Brands

Below is a list of bottled raw (not pasteurized) milk brands currently licensed by the Milk and Dairy Food Safety Branch (MDFS) of CDFA for legal sale or distribution within the State of California. Inclusion on the list means the dairy farm producing the raw milk is permitted and inspected by either MDFS or a CDFA-approved county milk inspection service, and that the facility where the raw milk is bottled is licensed and inspected by MDFS for sanitation. Regulatory licensing and inspection help to ensure that dairy farms and milk plants that produce, handle, and package raw milk meet requirements for livestock health and sanitation, and that the raw milk is regularly tested for compliance with microbiological standards for quality in state law.

The labels used on bottles or packages of raw milk sold at retail must also be submitted to MDFS for review and approval prior to their use to ensure they meet all applicable California and federal product labeling requirements. California regulations also require that labels on raw milk bottles must include the following statement:

“WARNING. Raw (unpasteurized) milk and raw milk dairy products may contain disease-causing micro-organisms. Persons at highest risk of disease from these organisms include newborns and infants; the elderly; pregnant women; those taking corticosteroids, antibiotics or antacids; and those having chronic illnesses or other conditions that weaken their immunity.”

A summary of state regulatory requirements applicable to raw milk producers and bottlers can be found at: [Raw Milk Requirements](#)

The list below is intended to help consumers of bottled raw milk to know which brands are from licensed sources that undergo ongoing regulatory inspections.

Brand:

Claravale Farms
Desi Milk
Duivenvoorden Farms
Farmer Joe’s
Leche Bronca
New Haven Dairy
Perennial Pastures

City:

Paicines, CA
