

In Title 3, Division 4, Chapter 3, adopt Section 3591.24 to read:

Section 3591.24. European Grapevine Moth Eradication Area.

(a) Proclamation of Eradication Area. That portion of the State of California described as follows within which a certain pest, European Grapevine Moth (*Lobesia botrana*), is known to exist are hereby proclaimed to be eradication areas with respect to said pest:

The entire State.

(b) Hosts and Possible Carriers, Within Said Area. The following nursery stock, plants and plant parts and any greenwaste residues thereof or any other plant which by scientific investigation is shown to be capable of sustaining European Grapevine Moth in any stage of development:

| <u>Scientific Name</u> | <u>Common Name</u> |
|--------------------------------------|---|
| <u><i>Actinidia chinensis</i></u> | <u>Kiwi fruit or Chinese Gooseberry</u> |
| <u><i>Berberis vulgaris</i></u> | <u>European Barberry</u> |
| <u><i>Clematis vitalba</i></u> | <u>Old-Man's-Beard or Traveller's Joy</u> |
| <u><i>Daphne gnidium</i></u> | <u>Spurge Flax</u> |
| <u><i>Dianthus</i> spp.</u> | <u>Carnation</u> |
| <u><i>Diospyros kaki</i></u> | <u>Persimmon</u> |
| <u><i>Galium mollugo</i></u> | <u>False Baby's Breath or White Bedstraw</u> |
| <u><i>Hypericum calycinum</i></u> | <u>St. John's Wort or Aaron's Beard</u> |
| <u><i>Ligustrum vulgare</i></u> | <u>European Privet</u> |
| <u><i>Olea europaea</i></u> | <u>Olive</u> |
| <u><i>Prunus</i> spp.</u> | <u>Stone Fruit (e.g. apricot, cherry, plum)</u> |
| <u><i>Punica granatum</i></u> | <u>Pomegranate</u> |
| <u><i>Rhus glabra</i></u> | <u>Smooth Sumac</u> |
| <u><i>Ribes</i> spp.</u> | <u>Currant, Gooseberry</u> |
| <u><i>Rosmarinus officinalis</i></u> | <u>Rosemary</u> |
| <u><i>Rubus</i> spp.</u> | <u>Blackberry, Dewberry</u> |
| <u><i>Silene vulgaris</i></u> | <u>Bladder Champion</u> |
| <u><i>Trifolium pratense</i></u> | <u>Red Clover</u> |

| | |
|-------------------------|-------------------|
| <u>Urginea maritime</u> | <u>Sea squill</u> |
| <u>Vitis spp.</u> | <u>Grape</u> |
| <u>Ziziphus jujuba</u> | <u>Jujube</u> |

(c) Possible Carriers. Possible carriers shall include all appliances used in the growing, harvesting, processing and hauling of the host plants and plant parts and any greenwaste residues including but not limited to tractors, trailers, trucks, planting, picking and pruning equipment and processing machinery, the premises and appurtenances thereto and any lands where host plants are growing or were grown during the past season, or any other thing which by scientific investigation is shown to be capable of harboring or spreading any stage of European Grapevine Moth.

(d) Means and Methods. The following means and methods may be used in the control and eradication of the European Grapevine Moth within the State:

(1) The repeated application of insecticides or herbicides sprays or dusts or biological agents or pheromones to disrupt mating or mass trapping by approved methods to any or all premises or lands, host plants or possible carriers, and any other articles or things which are infested or exposed to infestation and capable of harboring or spreading the European Grapevine Moth.

(2) The removal and destruction of any and all possible carriers, including nursery stock or trees and shrubs if permission is received from the property owner, or if such action is the only practical way of eliminating the infestation of a host or possible carrier to prevent the spread or reinfestation of European Grapevine Moth.

(3) The searching for all stages of European Grapevine Moth by visual inspection, the use of traps, or any other means anywhere within the said area.

(4) The removal and destruction of abandoned or unwanted hosts or possible carriers bearing or capable of bearing European Grapevine Moth in any life stage.

(5) The removal and destruction of plant parts, such as fruit or bark, capable of harboring any life stage of European Grapevine Moth.

(6) Covering with tarps or enclosed construction of all trucks, trailers and other appliances hauling host plants, host plant crops or greenwaste residues to or from packing

or processing facilities, greenwaste transfer stations, landfills, or elsewhere, to prevent spillage or blowout along roads.

(7) The importation, rearing, liberation, and fostering of parasites and predators which attach the moth.

(8) The importation, rearing, or liberation of sterile forms of the European Grapevine Moth.
