About the Program

Purpose

The California Department of Food and Agriculture (CDFA) is pleased to announce a competitive solicitation process to award up to \$488,000 in funding under the California Pet Lover's License Plate grant program. This program is funded by fees associated with the original purchase, annual renewal, and conversion of Pet Lover's license plates from the California Department of Motor Vehicles.

The purpose of this program is to help stop pet overpopulation in California by providing funds for spay/neuter services to municipalities and non-profit organizations in California. The revenue received from the sale and renewal of the license plate is awarded annually through grant agreements to eligible organizations.

Funding and Duration

The grant duration is one (1) year from June 1, 2023 – May 31, 2024. Grant funds cannot be expended before June 1, 2023 or after May 31, 2024. Grant Awards will range from \$25,000 to \$50,000. However, CDFA reserves the right to offer an award different than the amount requested.

Eligibility

To be eligible, an organization must be a veterinary facility, operated by a licensee manager. Both the facility and the manager must be registered and in good standing with the Veterinary Medical Board. The veterinary facility must be operated by either:

- A California city or county animal control facility that provides spay and neuter services to the public; or,
- A California non-profit (501(c)3) organization holding a municipal contract for animal control service; or,
- A California non-profit (501(c)3) organization that offers low-cost or no-cost spay and neuter services and is registered and in good standing with the Secretary of State.

A city, county, or city and county animal control agency or nonprofit shelter holding a municipal contract that offers spay and neuter services for dogs and cats owned by individual members of the public is required to be current on its yearly rabies reporting requirements to the California Department of Public Health, Veterinary Public Health Section.

Review and Notification

CDFA will conduct two levels of review. The first level is an administrative review to verify the applicant's eligibility, determine whether grant proposal requirements are met and, if applicable, assess an applicant's past CDFA grant performance. The second level is a technical review conducted by reviewers selected by CDFA to evaluate the merits of the grant proposal.

Review Criteria

CDFA's intent is to fund projects that can produce the highest degree of measurable benefits in relation to each dollar spent. Grant Proposals will be evaluated based on which proposals demonstrate the greatest public benefit and meet the goals of the Pet Lover's License Plate program. The criteria below will serve as guidance to reviewers, upon which grant proposals will be competitively rated. The technical reviewers will submit recommendations to CDFA for final determination of awards.

Proposal Scoring (50 points possible):

- **Project Purpose (10 points)**
Scoring should be based on how well the grant proposal addresses the specific issue, problem, or need, as well as the importance it has to the community.
- **Project/Pet Lover's License Plate Awareness (10 points)**
Scoring should be based on the reasonableness and likelihood of success of the project awareness plan as described.
- **Work Plan (10 points)**
Scoring should be based on the clarity of the work plan and relevance of the specific project activities to the project purpose.
- **Evaluation and Performance Monitoring Plan (10 points)**
Scoring should be based on the reasonableness and likely effectiveness of the proposed project accomplishments and plan to evaluate success.
- **Budget Template (10 points)**
Scoring should be based on the reasonableness of the budget, relevance to the project activities and goals and proportional to the applicant's capacity as described in the project oversight section.

Additional Considerations:

In addition to the criteria above, in selecting proposals for funding, CDFA may prioritize proposals from:

- Eligible veterinary facilities located in or serving underserved communities or those that can demonstrate financial need; or
- Eligible veterinary facilities that have previously provided or currently provide low-cost or no-cost animal sterilization services.

Notification and Feedback

Grant proposals that are disqualified during the administrative review will be notified by email within two weeks of the grant proposal due date. All other applicants will be

notified by email regarding the status of their grant proposals in Spring 2023. Feedback will be provided to applicants, upon request, within 60 days of award announcement.
