2017 Specialty Crop Block Grant Program Outcome Measures
Outcome Measures Supplement

- USDA and the Office of Management Budget have developed outcome measures that apply to the SCBGP.

- CDFA has developed an Outcome Measures supplement with additional information on these requirements.

Outcome Measures Template

- Ensures applicants identify the specific outcome measure(s) and indicator(s) as defined by USDA
- Ensures applicants provide a description of data collection methods/activities that will be undertaken to monitor and report on the outcome(s) and indicator(s) selected.
### Outcome 1: Enhance the competitiveness of specialty crops through increased sales

**Indicator 1:** Sales increased from \$\text{Enter dollar amount} to \$\text{Enter dollar amount} and by \text{Enter number} percent as a result of marketing and/or promotion activities.

**Description of data collection methods:** Click here to enter text.

**Description of activities to monitor and report on outcomes:** Click here to enter text.

---

### Outcome 2: Enhance the competitiveness of specialty crops through increased consumption

**Indicator 1:** Of the \text{Enter number} children and youth reached,
- \text{Enter number} gained knowledge about eating more specialty crops
- \text{Enter number} reported an intention to eat more specialty crops
- \text{Enter number} reported eating more specialty crops

**Indicator 2:** Of the \text{Enter number} adults reached,
- \text{Enter number} gained knowledge about eating more specialty crops
- \text{Enter number} reported an intention to eat more specialty crops
- \text{Enter number} reported eating more specialty crops

**Indicator 3:** \text{Enter number} new and improved technologies and processes to enhance the nutritional value and consumer acceptance of specialty crops (excluding patents)

**Indicator 4:** \text{Enter number} new specialty crops and/or specialty crop products introduced to consumers

**Description of data collection methods:** Click here to enter text.

**Description of activities to monitor and report on outcomes:** Click here to enter text.
Outcome Measures Template

1. Enter PIN (the five digit number assigned in FAAST).

2. Read the instructions carefully.

**PIN: Enter five digit number assigned in FAAST**

Select at least one of the eight outcome measures and at least one indicator for each selected outcome. Complete the fillable text fields for the indicator(s) selected. (Note: If there are multiple sub-indicators under the selected indicator, applicants must enter a value for at least one.) Within the Description sections, describe the data collection methods and any activities that will be undertaken to monitor and report on the outcome(s) and indicator(s) selected. Applicants may delete or leave blank any outcomes not applicable to their proposal. Outcome measures and the associated indicators were developed by USDA and the Office of Management and Budget and cannot be altered or amended in any way. Altering the language of the outcomes or indicators, or providing responses in a format other than that described in the document will result in disqualification of a proposal.
3. Select at least one outcome measure and indicator by clicking in the box on the left.

- **Outcome 1**: Enhance the competitiveness of specialty crops through increased sales
  - **Indicator 1**: Sales increased from $Enter dollar amount to $Enter dollar amount and by Enter number percent as a result of marketing and/or promotion activities.

- **Outcome 2**: Enhance the competitiveness of specialty crops through increased consumption
  - **Indicator 1**: Of the Enter number children and youth reached,
    - a. Enter number gained knowledge about eating more specialty crops
    - b. Enter number reported an intention to eat more specialty crops
    - c. Enter number reported eating more specialty crops

Outcome Measures Template

4. Describe the data collection methods and any activities that will be undertaken to monitor and report on the outcome(s) and indicator(s) selected.

Description of data collection methods: Click here to enter text.
Description of activities to monitor and report on outcomes: Click here to enter text.
Example: Outcome Measure 1

- **Enhance the competitiveness of specialty crops through increased sales**
  - **Indicator 1:** Sales increased from $1,000,000 to $1,500,000 and by 50 percent as a result of marketing and/or promotion activities.
  - **Description of data collection methods:** Quarterly sales reports from participating sellers.
  - **Description of activities to monitor or report on outcomes:** Project team will collect quarterly sales reports from participating sellers. Sales data will be collected before promotions begin to determine a baseline as well as during promotions. Data from these reports will be analyzed and used to monitor the increase in sales as a result of retail promotions.
Outcome Measure 1 (continued)

- Mandatory for:
  - All proposals submitted to the California Grown Promotion funding category
  - All marketing promotion projects that focus efforts to sell, advertise, promote, market and generate publicity, attract new customers, or raise customer awareness for specialty crops or a specialty crop venue.
**Example: Outcome Measure 2**

- **Enhance the competitiveness of specialty crops through increased consumption**
  - **Indicator 1:** Of the **2,500** children and youth reached, c. **1,900** reported eating more specialty crops.

- **Description of data collection methods:** Children will complete a pre- and post-survey to determine current levels of consumption.

- **Description of activities to monitor or report on outcomes:** Before participating in the education program, children will complete a pre-survey to determine current levels of specialty crop consumption. Participating children will then be given a nutrition lesson on specialty crops paired with taste tests. Participating children will then complete a post-survey one month after the nutrition lesson to determine new levels of consumption. Changes in the reported level of consumption will be used to demonstrate increased consumption as a result of the nutrition lesson.
