

ATTENTION EXHIBITORS

- It is the responsibility of the custodial agent to submit the selected horse for sample collection at the designated time and location.**
- Permissible medications (not to exceed maximum allowable levels):**

Phenylbutazone (Butazolidin®)	Flunixin (Banamine®)	Ketoprofen (Ketofen®)
Meclofenamic Acid (Arquel®)	Naproxen (Naprosyn®)	Dexamethasone (Azium®)
Firocoxib (Equioxx®)	Diclofenic Acid (Surpass®)	Methocarbamol (Robaxin®)
- The following must NOT be administered within 24 hours of competition:**

Stimulants	Depressants	Tranquilizers	Sedatives	Analgesics	Anabolic Steroids
Soring Agents	Anesthetics (including local anesthetics)		Corticosteroids (except dexamethasone)		
- A Drug Declaration Form must be filed** with the event manager if any **prohibited substance** is administered to a horse within three (3) days prior to the event.
- No injectable substances shall be administered to a horse within 12 hours of competition except a licensed veterinarian administering the following:**
 - Emergency fluids 6-12 hours prior to competition (1 liter per 100 lbs. body weight minimum).
 - Antibiotics (except for procaine penicillin, which is still prohibited)
 - Dexamethasone within 6-12 hours of competition for the treatment of hives.
 - Note: A Drug Declaration form must be filled following administration of these substances.
- Emergency administration of flunixin (Banamine®) by a licensed veterinarian is allowable for emergency treatment of colic or an ophthalmic emergency, but the horse must be withdrawn from competition for 24 hours after administration.**

Failure to comply with applicable laws and regulations* may subject the responsible person to a civil penalty of not less than \$100 and not more than \$10,000
