

# Beef Cattle Entry Requirements

## Entry Documentation

([3 CCR §831.4](#); [FAC 10610](#))

California requires an **Interstate Livestock Entry Permit** for **all** cattle (including steers and slaughter cattle). To obtain an Interstate Livestock Entry Permit, please call the California Department of Food and Agriculture (CDFA) **Animal Health Branch (AHB) permit line at (916) 900-5052**. Permits are valid for 15 days after being issued.

California requires a **Certificate of Veterinary Inspection (CVI)** for cattle within 30 days before movement into the state.

### Exemptions:

- Cattle moving directly to slaughter, with a brand document, owner-shipper statement, or saleyard release.
- Beef breeding herds with a Pasture to Pasture permit.

## Official Identification (ID)

([3 CCR §831.3](#), [§831.4](#); [FAC 10610](#))

The following beef cattle require individual official ID:

- Sexually intact beef females 6 months and over
- Sexually intact beef males 18 months and over
- Any cattle used for show, exhibition, rodeo, or recreation

Official ID must be listed on the CVI, except:

- Cattle moving from an Approved Livestock Market directly to a recognized slaughtering establishment.
- Sexually intact beef breed cattle under 18 months.
- Steers or spayed heifers.
- Cattle from OR, NV, or WA if accompanied by a brand inspection certificate with registered brand.

### Note:

- If official ID is not required, the **CVI** must state the exemption.
- If official ID is required, but listing it is not, the **CVI** must state "all animals are officially identified".
- Brand inspection requirements remain in effect.

See CDFA's Fact Sheet

["Cattle - Official Identification Options"](#) for detailed information on options for official ID for cattle.

If you are transporting livestock into California with an electronic CVI, please print and present a hard copy to the Inspector at the Border Protection Station.

# Beef Cattle Entry Requirements

## Brucellosis

([3 CCR §753.1](#); [FAC 10326, 10327](#))

Sexually intact cattle of any age moving from a **Designated Brucellosis Surveillance Area** require a negative brucellosis blood test obtained within 30 days before movement into the state and a **Special Entry Permit**.

## Tuberculosis (TB)

([3 CCR §758](#); [FAC 9932](#))

California requires a negative TB test for beef breeding cattle **6 months of age and over** within 60 days before movement, *if* originating from states/zones not classified as "TB Free."

## Trichomonosis

([3 CCR §820.3](#); [FAC 10610](#))

California requires a negative individual PCR trichomonosis test on bulls 18 months of age and over and non-virgin bulls less than 18 months of age.

Samples must be taken at least 10 days after last contact with sexually mature cows, and within 60 days before movement into the state.

California requires the **CVI** to include the test date, test type, test result, and statement: **"Trichomonosis has not been diagnosed in the herd of origin within the past 24 months."**

**Note: Test results from pooled or cultured samples are not acceptable.**

### Exemptions:

- Bulls moving to a certified semen collection facility.
- Bulls used solely for exhibition, confined to an exhibition location without access to mature female cattle.
- Bulls moving directly to a recognized slaughtering facility, or to a feedlot for feeding (no grazing or exposure to female cattle) and then to slaughter.
