Description

Identifies the individual equine, including, but not limited to, name, age, breed, color, gender, distinctive markings, **and** unique permanent forms of identification (e.g. brands, tattoos, scars, cowlicks, blemishes)

Digital Photograph

Digital photos sufficient enough to identify the equine, usually taken of both sides and face of the equine can be used on electronic forms.

Microchip

USDA compliant 134.2 kHz (ISO 11784/11785) microchips placed into the nuchal ligament in the middle third of the neck on the left side on the equine.

Registration Tattoo

Should be recorded and included as part of the description of the equine
