

Quarterly Reports

In accordance with Food and Agricultural Code 9212.5, CDFA calculates the total estimated amount of canine blood sold in California each quarter by community blood banks and, separately, the total estimated amount of canine blood that closed-colony blood banks sold in the state. This information, along with annual totals, is posted on this website.

CDFA will discontinue its licensing program for commercial blood banks for animals that produce canine blood and blood component products sourced from captive closed-colony dogs within 18 months of making a finding that community blood banks sold an annual amount of canine blood in California that equals or exceeds the annual amount closed-colony blood banks sold in four consecutive quarters. CDFA will provide notice on the department's internet website when this happens.

January 1, 2024 – March 31, 2024

Blood Bank Type	Whole Blood (ml)	Red Blood Cells (ml)	Fresh-Frozen Plasma (ml)	Total (ml)
Closed-Colony Blood Banks	29,750	195,875	150,120	375,745
Community Blood Banks	450	1,889	1,200	3,539

The amount of blood sold by community blood banks did not exceed the amount sold by closed-colony blood banks this quarter.
