

**DEPARTMENT OF FOOD AND AGRICULTURE
Animal Health Branch
EQUINE MEDICATION MONITORING PROGRAM**

**SUPPLEMENT TO THE INITIAL STATEMENT OF REASONS
REGARDING THE ORIGINALLY PROPOSED REGULATION TEXT**

The Department of Food and Agriculture (Department) is making available to the public and adding to the rulemaking file this Supplement to the Initial Statement of Reasons regarding the originally proposed regulation text, which was noticed for a 45-day public comment period ending June 3, 2019. The purpose of this supplement is to clarify the intent of the documents added to the rulemaking file and amended regulatory text inadvertently omitted from the original proposal as shown below in *italics*.

Subject Matter of Proposed Regulation

Equine Medication Monitoring Program - Fees

Section Affected

Sections 1280.1., 1280.2., and 1280.8

Specific Purpose of Each Adoption, Amendment, or Repeal

Existing law, section 407 of the Food and Agricultural Code, provides that the Secretary may adopt such regulations as are reasonably necessary to carry out the provisions of the code which she is directed or authorized to administer or enforce.

Existing law, Chapter 8 (commencing with section 24000) of Division 11 of the Food and Agricultural Code authorizes the Department of Food and Agriculture (Department) to ensure the integrity of public horse shows, horse competitions, and horse sales through the control of performance and disposition enhancing medications while limiting their permitted therapeutic usage. The Department's Animal Health Branch, Equine Medication Monitoring Program (EMMP) enforces the requirements of these sections of law.

Existing law, section 24012 of the Food and Agricultural Code requires an event manager to charge, collect, and remit fees to the Department for events registered with the Department, and establishes the authority to set the applicable fees by regulation, in consultation with the advisory committee appointed pursuant to section 24013.5. Fees

are collected for each equine being entered in a public show/competition or being consigned to a public sale; fees collected are used to fund the EMMP.

Existing law, section 24013 of the Food and Agricultural Code authorizes the Department to adopt regulations necessary to carry out the provisions of the chapter and specifies that in making and adopting regulations, the Department must first consult with the advisory committee appointed pursuant to section 24013.5.

Existing section 1280.2 of Title 3 of the California Code of Regulations specifies the fees for each horse entered per event at horse shows and competitions are \$5.00. This proposal amends section 1280.2 to increase the applicable fees from \$5.00 to \$8.00 for each horse entered in public events, competitions, and sales. As amended, this section also specifies the effective date of the fee increase to begin January 1, 2020. *The Department is additionally amending section 1280.1 to reflect the proposed fee increase from \$5.00 to \$8.00, as well as the three (3) forms incorporated by reference in the section. One of the forms is referenced in section 1280.8 which this proposal also amends to reflect the updated form revision date.*

The Department has evaluated this proposal and believes that it is not inconsistent or incompatible with existing State regulations. The Department is the sole State authority over specified public equine events and sales pursuant to Chapter 8 (commencing with section 24000) of Division 11 of the Food and Agricultural Code.

Statement of Factual Basis and Rationale

The Animal Health Branch (AHB) is the State's professional veterinary medical unit that protects livestock, consumers, and California's economy from catastrophic animal diseases and other health issues. It addresses diseases and other issues that cannot be successfully controlled on an individual animal or herd basis but require statewide coordinated efforts. The Branch is responsible for deterring any activities that have the potential to compromise California's abundant food supply or the safety of public and animal health.

California is the only state with a state-based industry-funded horse drug testing program that targets sample collections from horses entered in public equine events. The California equine industry sponsored legislation in 1971 to prevent misuse of drugs and medications in horses, ponies, mules and donkeys in public shows, competitions and sales. The intent of the Equine Medication Monitoring Program (EMMP) is to ensure the integrity of public horse shows, competitions and sales through the control of performance and disposition-enhancing drugs, and to allow limited therapeutic use of drugs at an equine event. The EMMP monitors equines in public shows, competitions, and sales

though random collection of blood or urine for chemical analysis. The California Equine Medication Rule prohibits use of certain drugs or drug combinations yet accommodates specific legitimate therapeutic use of medications within specified parameters.

California hosts approximately 1,300 registered equine events annually, ranging from small backyard schooling shows to internationally recognized endurance events, as well as other types of competition and public horse sales, totaling approximately 100,000 horses competing per year. Less than 25 percent of California's 1,300 events are registered with the national governing body, the United States Equestrian Federation (USEF), which enforces drugs and medication rules for nationally sanctioned events. Thus, most of the shows in the State are regulated by the Department's EMMP to ensure compliance with drugs and medication rules.

The EMMP is entirely industry funded. Event managers collect applicable fees from persons entering horses in shows and competitions or consigned to public sales. The event manager remits the fees to the Department of Food and Agriculture (Department), and they are deposited into the Department of Food and Agricultural Fund. The drug-testing fees are exclusive of any other fees charged by the industry for the administration and management of equine events, such as entry fees, stall fees, grounds fees, and training fees.

Event managers, in addition to collecting and remitting fees as discussed above, are required to register (advise and record) the event with the EMMP at least 60 days in advance of the scheduled event. Event managers failing to comply with EMMP regulations are subject to suspension from hosting or managing an event for a period of days for each violation. An event manager who violates a suspension by hosting or managing an event during the suspension period is subject to civil penalties for each violation.

As registered equine events approach, EMMP field personnel receive assignments to randomly select equines competing in or consigned to a registered event for sample collection. Any equine on an event premises is subject to random selection for sampling and testing, however at public shows and competitions, selection often focuses on animals that have placed in a class. EMMP field personnel are trained to collect urine samples, however when a California-licensed veterinarian is assigned to work with EMMP field staff, selected equines are subject to collection of a blood sample.

Equine Medication Monitoring Program personnel seal collected samples and submit the samples for chemical analysis to the Kenneth L. Maddy Equine Analytical Chemistry Laboratory. When the chemical analysis of a blood or urine specimen is positive for detection of a drug or medicine, an EMMP investigation begins. The

owner/exhibitor/trainer or consignor of the equine with a sample found positive on chemical analysis will receive an initial EMMP investigatory letter requesting submission, within a designated timeframe, of relevant evidence or information about the detected substance. The EMMP considers submitted information in determining if a violation occurred. If it is determined that a violation of the rule has occurred, a notice of violation will be issued in addition to a notification of their right to appeal. The assessment of the penalty/fine considers the type of drug detected and the background information provided in the investigation.

The EMMP has an advisory committee of members representing a broad range of equine disciplines regulated by the EMMP. Each California equine industry organization can nominate one representative and one alternate to the advisory committee. The advisory committee is responsible for addressing industry-related concerns about the EMMP and holds a minimum of one public meeting each year to review staffing and resources, and discuss various issues relating to the equine industry.

At the September 27, 2017 EMMP Advisory Committee meeting², committee members reviewed budget projections and determined the need for a \$3.00 increase in the testing fees. The fee increase is intended to maintain current program operations, but equally important to stabilize the program reserve account. Unfortunately, the Department rejected a proposed regulation change to increase the testing fees by \$3 until the program's reserve account decreased to a one-year operating expense level of approximately \$900,000. At that time, the estimated EMMP financial reserve was approximately \$1.1 million, and therefore a fee increase was rejected.

At the September 27, 2018 EMMP Advisory Committee meeting¹, committee members reviewed budget projections and again determined the need for a \$3 testing fee increase. At that time, the program's reserve account was projected to be below the one-year operating expense level of approximately \$900,000 by the end of the 2018/2019 fiscal year. Because projections revealed a significant drop in the program's reserve over the next three years, the EMMP Veterinarian Specialist overseeing the program presented to the committee a proposal for a two-tier increase in the testing fees where the fee would increase to \$8 in 2020 and then increase to \$10 in 2023. The committee discussed other group testing fees such as the USEF drugs and medication group testing fee which is currently \$15³. However, after discussing all options, the committee agreed only to the \$8 testing fee in 2020 and requested a yearly re-evaluation of the revenues and expenditures to determine future program needs. The committee members in attendance voted unanimously to recommend a \$3.00 fee increase, and that it should take effect January 1, 2020.

Therefore, based upon the recommendation of the EMMP Advisory Committee, the Department is proposing a \$3.00 increase to testing fees as stated in section 1280.2 of Chapter 6, Division 2 of Title 3, of the California Code of Regulations to read as follows:

Section 1280.2. Testing Fees.

Beginning January 1, ~~2005~~ 2020, the applicable fee is ~~\$58.00~~ per horse entered per event, except where a horse is entered in simultaneous multiple events held as single performances, the total applicable fee per horse shall be ~~\$58.00~~.

Note: Authority cited: Sections 407, 24012 and 24013, Food and Agricultural Code.
Reference: Sections 24012, Food and Agricultural Code.

Additionally, the Department is proposing to amend section 1280.1 to reflect the \$3 fee increase proposed in section 1280.2, as well as the fee amount stated on the three (3) forms currently incorporated by reference in the section. Amendments to the forms are discussed in the "Forms Incorporated by Reference" section of this document. Additional amendments to section 1280.8 are proposed to update the revision date (2 times) for one of the forms.

In fiscal year 2017/18, there were 1,246 events registered with the EMMP. The annual program goal is to assign staff to sample horses for drug-testing at about 40% of those events held throughout the State. The program employs one full-time Veterinarian Specialist (\$7,802-\$9,729/month; beginning FY 2017/2018, 50% of salary from the EMMP, 50% from the AHB), one full-time Research Scientist I (\$5,762-\$7,161/month; beginning FY 2017/2018, 50% of salary from the EMMP, 50% from the AHB), one full-time Agriculture Program Supervisor (\$5,508-\$6,836/month), one full-time Management Services Technician (\$3,186-\$3,992/month), and 14 Agricultural Technicians (\$14.53-\$17.34/hour), as needed each year. The frequency of equine events varies throughout the year, with a higher number scheduled in the warmer, drier months, and usually on weekends.

To demonstrate the EMMP budgetary shortfall over the next three years, the Department prepared a fund condition statement (example #1 in the rulemaking file)⁴. The results showed that the reserve account would steadily decrease from \$937,314 in 2017 to (\$816,993) by July 2022. With the fee increased to \$8.00, the program reserve account is projected at (\$56,562) by July 2022 (example #2 in the rulemaking file)⁵ however program staff anticipate another fee increase in 2021 upon the approval of the EMMP Advisory Committee to raise the program's reserve account to an acceptable level.

The EMMP receives no revenue from the General Fund and must rely almost entirely on the drug-testing fee for funding. The EMMP budget provides annual funding for the program, but it is crucial that the program maintains a satisfactory reserve account to

sustain the program should an unexpected event take place that would prohibit horse shows on a large scale such as an emergency disease outbreak, natural disaster, or other catastrophic occurrences. For example, a major earthquake or fire in the San Francisco Bay Area or Southern California would result in the cancellation of events for an extended period. This could easily result in a significant, or no program revenues for a period of several months to a year. Additionally, the potential for litigation and legal costs exists and is a major consideration that prompts the retention of an adequate program reserve. The proposed \$3.00 increase in the drug-testing fee is imperative to maintain and administer the continuity of service provided by the EMMP to the equine industry.

FORMS INCORPORATED BY REFERENCE

Section 1280.1 requires every public event or public horse sale to be registered with the Department and incorporates by reference specified forms for use in the registration of events and remittance of fees assessed and collected by event managers, as specified.

Forms specified in the existing regulation are outdated in format and content, and do not meet accessibility standards, therefore the Department is proposing to update those forms. To facilitate and simplify amendments to these forms, the Department proposes to strikeout the entirety of each form and propose new forms because the standard strikeout and underline format became confusing to implement and interpret for purposes of public notification. Therefore, the following forms, which are incorporated by reference in section 1280.1(c), are required to be completed and sent to the Department according to the instruction contained on the forms and are described as follows:

Section 1280.1(c)(1)

- *Application to Register Equine Event/Assessment Report for Registered Event, Form 76-024A (Rev.08/19). Event managers use this form to register equine events and remit fees collected and due to the Department in accordance with section 1280.2 authorized by Food and Agricultural Code section 24015. Specifically, the form requests information necessary to identify each event including: the name of the event, type of event, start and end dates and start time, number of equines expected, facility name and location, contact information for the event manager and an alternate contact, if necessary. Additionally, this form is used for remittance of fees due to the Department by the event manager. Information and calculation instructions pertaining to the amount due (specifying the proposed fee of \$8.00 per equine as amended in the text of the subsection) to the Department and specifies the manner in which the event manager may submit the fees, including a signature of the person registering the event and date. The form additionally addresses late payment penalties as authorized by Food and Agricultural Code section 24012.*

Section 1280.1(c)(2)

- Saleyard Assessment Report/Law Prohibiting Drugging of Horses, Form 76-025 (Rev. 08/19). Sale managers use this form to remit fees collected and due to the Department in accordance with section 1280.2 for each horse consigned for public sale. This form requests information necessary to identify each sale including: name of the sale, facility name and address, mailing address, and telephone number. Information and calculation instructions pertaining to the amount due (specifying the proposed fee of \$8.00 for each horse consigned for public sale as amended in the text of the subsection) to the Department and specifies the manner in which the sale manager may submit the fees, including a signature of the person authorized to certify the report. The form additionally addresses late payment penalties as authorized by Food and Agricultural Code section 24012.

Section 1280.1(c)(3)

- Official Form For Declaration Of Drugs Administered, Form 76-027 (Rev. 08/19). Registered event exhibitors and consignors use this form (or a compatible document of the event-sanctioning organization) to provide notification and report to event managers and the Department use of prohibited substances for therapeutic reasons in any horse competing at events or consigned for sale, as specified. This form requests information necessary to identify the event, horse, and drugs or medications administered (this information may be used in the event of a violation) including product name, amount given, route, reason for administration, date and time of administration, name and signature of the person administering the drug, and contact information of the horse owner. The name and signature of the event official receiving the declaration, including date and time of receipt is necessary to verify the reporting of drug/medication usage and withdrawal periods are consistent with the requirements of the EMMP drugs and medications rules and regulations. Event managers are required to submit to the Department any declaration forms received when submitting assessment reports and fees within 15 days of the event, as specified.
