## Additional Details

### If overlapping spending:

The grant recipient must be able to account for and report on both grant awards simultaneously and ensure that there is clear delineation between and non-duplication of the use of funds for each project.

### If staggering spending:

The grant recipient must understand that the grant term for the 2023-24 award will still end on the same date as those who overlap spending.

### All previous grant recipients:

Please note that all grant recipients must complete their project and spend their grant funds by the end of the grant term stated in their grant agreement
