

List of Materials Prohibited for Use in OCal Cannabis Production

This list is provided for reference purposes and is not intended to be comprehensive. In addition to the materials identified below, any synthetic material that is not included at 7 CFR § 205.601 of the National List of Allowed and Prohibited Substances (National List) is prohibited for use in OCal cannabis production. The materials listed below are specifically prohibited on the National List at 7 CFR § 205.602, have been reviewed by a Federal agency and determined to be prohibited, or are no longer allowed for use in organic (and therefore OCal) crop production.

Find more classification information in OCal 5033 Classification of Unique Materials, OCal 5033-1 Decision Tree for Classification of Materials, ~~OCal 5033-2 Definitions of Terms Used for Classification~~, OCal 5034 ~~Classification of~~ Materials for OCal Cannabis Production, and OCal 5034-1 List of Materials for Use in OCal Production.

<u>1,4-Dimethylnaphthalene</u>	<u>Dextrin</u>
<u>3-Decen-2-one</u>	<u>Ethylene Glycol</u>
<u>6-Benzyladenine</u>	<u>Exhaust Gas (Carbon Monoxide)</u>
<u>Acetylated Lanolin Alcohol</u>	<u>Glycerin Oleate</u>
<u>Acrylic Acid Methyl Ester, Polymer with</u>	<u>Glyphosate</u>
<u>Acrylonitrile and 1,3-Butadiene</u>	<u>Humic acid, treated with hydrogen peroxide</u>
<u>Ammonium Nonanoate, except as</u>	<u>(oxidized lignite)</u>
<u>provided on in 7 CFR § 205.601</u>	<u>Indole-3-butyric Acid</u>
<u>Arsenic</u>	<u>Lead Salts</u>
<u>Ash from Manure Burning</u>	<u>Leather Meal</u>
<u>Avermectin</u>	<u>Lime Mud</u>
<u>Basic Slag, agricultural slag</u>	<u>Magnesium Dihydrogen Phosphite</u>
<u>Biosolids</u>	<u>Monohydrate</u>
<u>Calcium Carbide</u>	<u>Manganous Oxide, except as provided on in</u>
<u>Calcium Oxide, fertilizer use</u>	<u>7 CFR § 205.601(j)</u>
<u>Calcium Sulfate (synthetic form)</u>	<u>Methyl Bromide</u>
<u>Captan</u>	<u>Methyl Laurate</u>
<u>Chitosan</u>	<u>Monocalcium Phosphate</u>
<u>Copper Chromium Arsenate</u>	<u>Nickel Salts, Synthetic</u>
<u>Coumarone – indene resin</u>	<u>Niter</u>
<u>Cryolite</u>	<u>Pelargonic Acid</u>

Pentaerythritol Monostearate

Pentaerythritol Tetrastearate

Piperonyl Butoxide

Propylene glycol monolaurate (PGML)

Polyoxin D Zinc Salt

Potassium Sulfate (synthetic form)

Propane, for underground rodent control

Sewage Sludge

Sodium Chlorate

Sodium Fluoaluminate

Sodium Fluoride

Sodium Lauryl Sulfate (SLS)

Sodium Propionate

Streptomycin

Struvite (Magnesium Ammonium
Phosphate)

Strychnine

Sulfuric Acid, except as provided ~~on~~ in 7

CFR §205.601(j)

Tall Oil

Tetracycline

Tetrahydrofurfuryl Alcohol

Thiram

Tobacco Dust (Nicotine Sulfate)

Triple Phosphate

Urea

Note: Substances classified as EPA List 4, Inerts of Minimal Concern, may be permitted in pesticide products under section 7 CFR 205.601 (m). Certified operations should receive approval from their certifying agents before using pesticide products that contain these substances.
