Notice of Administrative Amendment to a License

1. Corporation

A California corporation generally is a legal entity, which exists separately from its owners. While normally limiting the owners from personal liability, taxes are levied on the corporation as well as on the shareholders.

To form a corporation in California, Articles of Incorporation must be filed with the California Secretary of State's office. Forms for the most common types of Articles of Incorporation are available on the California Secretary of State website. You may use the form or prepare your own statutorily compliant document.

Corporations must be registered with the California Secretary of State prior to being issued a cultivation license. Corporations must provide a current and active "Secretary of State Registration Entity ID" where indicated.

2. Limited Liability Company (LLC)

A California LLC generally offers liability protection similar to that of a corporation but is taxed differently. Domestic LLCs may be managed by one or more managers or one or more members. In addition to filing the applicable documents with the Secretary of State, an operating agreement among the members as to the affairs of the LLC and the conduct of its business is required. The LLC does not file the operating agreement with the Secretary of State but maintains it at the office where the LLC's records are kept.

To form an LLC in California, Articles of Organization (Form LLC-1) must be filed with the California Secretary of State's office.

LLCs must be registered with the California Secretary of State prior to being issued a cultivation license. LLCs must provide a current and active "Secretary of State Registration Entity ID" where indicated in Section A.2 of the amendment form.

3. Limited Partnership (LP)

A California LP may provide limited liability for some partners. There must be at least one general partner that acts as the controlling partner and one limited partner whose liability is normally limited to the amount of control or participation of the limited partner. General partners of an LP have unlimited personal liability for the LP's debts and obligation.

To form an LP in California, a Certificate of Limited Partnership (Form LP-1) must be filed with the California Secretary of State's office.

Notice of Administrative Amendment to a License

Partnerships must be registered with the California Secretary of State prior to being issued a cultivation license. LPs must provide a current and active “Secretary of State Registration Entity ID” where indicated in Section A.2 of the amendment form.

4. General Partnership (GP)

A California GP must have two or more persons engaged in a business for profit. Except as otherwise provided by law, all partners are liable jointly and severally for all obligations of the partnership, unless agreed by the claimant.

To register a GP at the state level, a Statement of Partnership Authority (Form GP-1) must be filed with the California Secretary of State’s office. Note: Registering a GP at the state level is optional.

5. Limited Liability Partnership (LLP)

An LLP is a partnership that engages in the practice of public accountancy, the practice of law, the practice of architecture, the practice of engineering or the practice of land surveying, or provides services or facilities to a California registered LLP that practices public accountancy or law, or to a foreign LLP.

To register an LLP in California, an Application to Register a Limited Liability Partnership (Form LLP-1) must be filed with the California Secretary of State’s office.

Partnerships must be registered with the California Secretary of State prior to being issued a cultivation license. LLPs must provide a current and active “Secretary of State Registration Entity ID” where indicated in Section A.2 of the amendment form.

6. Sole Proprietorship

A sole proprietorship is set up to allow an individual to own and operate a business. A sole proprietor has total control, receives all profits from, and is responsible for taxes and liabilities of the business. If a sole proprietorship is formed with a name other than the individual’s name (example: John Smith’s Fishing Shop), a Fictitious Business Name Statement must be filed with the county where the principal place of business is located.

No formation documents are filed with the California Secretary of State’s office. Other state filings may be required depending on the type of business.

Notice of Administrative Amendment to a License

7. Sovereign Entity

Native Sovereign Nations are federally recognized tribes that are registered with the Federal Government under “Indian Entities Recognized and Eligible to Receive Services from the United States Bureau of Indian Affairs.”

8. Trust

An unincorporated business organization created by a legal document, a declaration of trust, and used in place of a corporation or partnership for the transaction of various kinds of business with limited liability.

9. Other

For any other business entity structure not listed above.

Foreign Corporations

In the application form, check “Yes” or “No” if the applicant entity is a foreign corporation. A foreign corporation is an existing corporation that is registered to do business in a state or jurisdiction other than where it was originally incorporated. Attach the Certification of Qualification issued by the California Secretary of State, demonstrating the business is qualified to transact intrastate business in California as defined in section 191 of the California Corporations Code.

Cannabis Cooperative Association

In the application form, check “Yes” or “No” if the applicant entity is a Cannabis Cooperative Association. If the “Yes” box is checked, enter the “Name of Cannabis Cooperative Association” and attach a list identifying all members of the Cannabis Cooperative Association. Identifying information shall include each member’s license number for commercial cannabis activity, the licensing authority that issued the license, and the name of the licensed business.

The requirements for a Cannabis Cooperative Association are set forth by Division 10, Chapter 22 (commencing with section 26220) of the Business and Professions Code. A Cannabis Cooperative Association may be formed by three or more natural persons, who engage in the cultivation of any cannabis product, and have formed an association defined as a cannabis cooperative for the purpose of engaging in any activity in connection with any of the following:

1. Cultivation, marketing, or selling of the cannabis products of its members;
2. Growing, harvesting, curing, drying, trimming, packing, grading, storing, or handling of any product of its members;
3. Manufacturing, selling, or supplying to its members of machinery, equipment, or supplies; or

Notice of Administrative Amendment to a License

4. Financing of the activities that are specified by this section.

SECTION A.2: LICENSED ENTITY INFORMATION

On the amendment form, only complete those fields that correspond to the information you are amending/changing regarding the licensed entity. Please see the following to understand the information the department will be collecting.

The “Legal Business Name” refers to the legal name of the applicant entity as registered with the California Secretary of State, California Department of Tax and Fee Administration (CDTFA), or local jurisdiction. If your business is registered with the Secretary of State, the business name shown on your application must match exactly the business name as registered with the California Secretary of State.

If you are a sole proprietorship, you still need to complete the “Legal Business Name” located in Section A.2. In addition, all business entities need to provide the “Last Name” and “First Name” of the individual who is the business contact.

Input the associated Employer Identification Number (EIN) used to identify the applicant entity.

Note that in some cases, a sole proprietorship may use their Taxpayer Identification Number to report their tax information and therefore not have an EIN. In this situation, please select and provide the appropriate Taxpayer Identification Number, which refers to the associated Social Security Number (SSN), Individual Taxpayer Identification Number (ITIN), or National Identification Number (NIN), used to identify the Business by the IRS.

The following defines the difference between the 3 types of Taxpayer Identification Numbers:

- SSN – Social Security Number – is a nine-digit number issued to U.S. citizens, permanent residents, and temporary (working) residents authorized to work in the United States. It is a 9-digit number formatted NNN-NN-NNNN.
- ITIN – Individual Taxpayer Identification Number – is a tax processing number only available for certain nonresident and resident aliens, their spouses, and dependents who cannot get a Social Security Number. It is a 9-digit number formatted NNN-NN-NNNN.
- NIN – National Identification Number – Taxpayer Identification Number used by governments in many other countries to track their citizens, permanent and temporary residents for taxation purposes.
