CITRUS PEST AND DISEASE PREVENTION COMMITTEE (CPDPC)
OUTREACH SUBCOMMITTEE WEBINAR MEETING
Meeting Minutes
Wednesday, August 4, 2021

Outreach Subcommittee Members Present:
Aaron Dillon    Sylvie Robillard

Outreach Subcommittee Members Absent:
John C. Gless    Nick Hill    Mark McBroom
Dr. Monique Rivera

CDFA Staff:
Fidan Aghayarova    Victoria Hornbaker    Daniel Lee
Kelley Aubushon    Karla Huerta    Zachary McCormack
Fernando Berber    Laura Irons    Alex Muniz
Karina Chu    Anmol Joshi    Lydia Rodriguez
David Gutierrez    Sara Khalid-Davis    Briana Russell
Amelia Hicks

Guests:
Price Adams    Dylan Lomanto    Alexis Silveira
Robert Atkins    Marcy Martin    Cressida Silvers
Teri Blaser    Margaret O’Neill    Krista Smith
Natalie DeAngelo    Curtis Pate    Judy Zaninovich
Jessica Leslie    Paige Shewmaker    Sandra Zwaal

Opening:
Aaron Dillon called the Citrus Pest and Disease Prevention Committee (CPDPC) Outreach Subcommittee (Subcommittee) meeting webinar to order at 1:30 p.m. on Wednesday, August 4, 2021. Aaron welcomed subcommittee members, guests, and staff.

Outreach Budget Review:
Zachary McCormack reported on the outreach budget for fiscal year (FY) 2020-2021, noting that the outreach expenditures to date total $1,250,933.

Update on Strategic Priority 5: Outreach & Collaboration:
CPDPP Outreach Update:
Price Adams of Nuffer, Smith, Tucker (NST) introduced Dylan Lomanto, NST’s new government relations and public affairs specialist. Dylan leads NST’s elected official outreach program.

Overview of Existing Activities

Homeowner Outreach:
Paige Shewmaker reported that NST launched an audio streaming campaign with Pandora radio to caution Californians on packing citrus for vacations. NST is conducting ongoing outreach in areas where *Tamarixia radiata* are released, which includes interviews with Dr. David Morgan and Victoria Hornbaker. Homeowner outreach also includes editorials in local newspapers, and informational booths at farmers markets.

Industry Outreach:
Krista Smith reported that NST and the Citrus Pest and Disease Prevention Division co-hosted three virtual packing house meetings for stakeholders from the San Joaquin Valley, Southern
California, and Ventura/Central Coast. Natalie DeAngelo reported that NST’s industry outreach efforts focused on promoting the Citrus Pest and Disease Prevention Program (CPDPP) activities and pest management best practices. NST distributed direct mailers updating stakeholders on The Citrus Insider webpage and informing them on how to sign up for news alerts using a quick response (QR) code. NST also produced roadside banners for industry members to display on their property.

**Elected Official Outreach:**
Dylan Lomanto reported that NST sent a quarterly email update to 900 recipients to inform Southern California residents on the huanglongbing (HLB) quarantine. NST also met with County Agricultural Commissioners (CAC) to strengthen relationships and provide a status update on Asian citrus psyllid (ACP) and HLB activities. NST met with CACs from Fresno, Imperial, Kern, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, Tulare, and Ventura. Bob Atkins stated that the term “bulk citrus” is not well understood by small growers and that more outreach needs to be done.

**Open Discussion on Outreach Activities**
Krista Smith reported that an article will be published in the fall edition of Citrograph magazine focusing on the “Don’t Move Citrus” campaign. A dedicated webpage is being developed on CaliforniaCitrusThreat.org regarding HLB quarantine zones. NST is exploring a Zone 3 quarantine tree tag pilot program with a “call to action” and QR code to direct residents to CaliforniaCitrusThreat.org for additional program information.

In partnership with Plant California Alliance, NST is developing educational materials for nurseries modeled after the California Certified Nursery Professional Program. Digital train-the-trainer workshops are also being developed. NST also secured a booth at the September 22-24, 2021 California League of Cities Conference to connect with elected officials.

**UC Outreach Update:**
Sara Khalid reported on behalf of Dr. Monique Rivera, that two webinars centered on ACP management are available on the University of California (UC) Integrated Pest Management (IPM) YouTube page, and the third will be posted on the UC Agricultural and Natural Resources (ANR) YouTube page.

**CCM Outreach Update:**
No Update.

**CRB Outreach Update:**
Marcy Martin reported that Citrus Research Board will host the California Citrus Conference on October 6, 2021 at the Wyndham hotel in Visalia and the International Research Conference on Huanglongbing in either September or October 2022.

**New Issues - Discussion & Brainstorming:**
Victoria Hornbaker encouraged participants to share ideas and discussion topics for outreach activities and four suggestions were offered: (1) NST should create a bookmark with ACP and HLB infographics; (2) CPDPP should connect with rare fruit growers and grafters, (3) the UC team should harmonize the UC ANR pesticide list with the UC IPM webpage, (4) it would be beneficial to publish editorials in areas where ACP and HLB have not been detected.

**Other Items and Adjournment:**
The meeting was adjourned at 2:47 pm. The next Outreach Subcommittee meeting will be held on October 6, 2021.
