

Operational Update

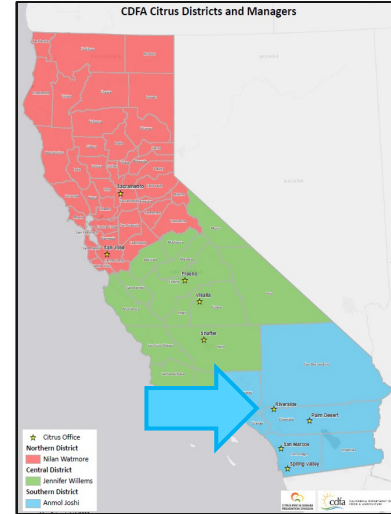

CPDPC Meeting

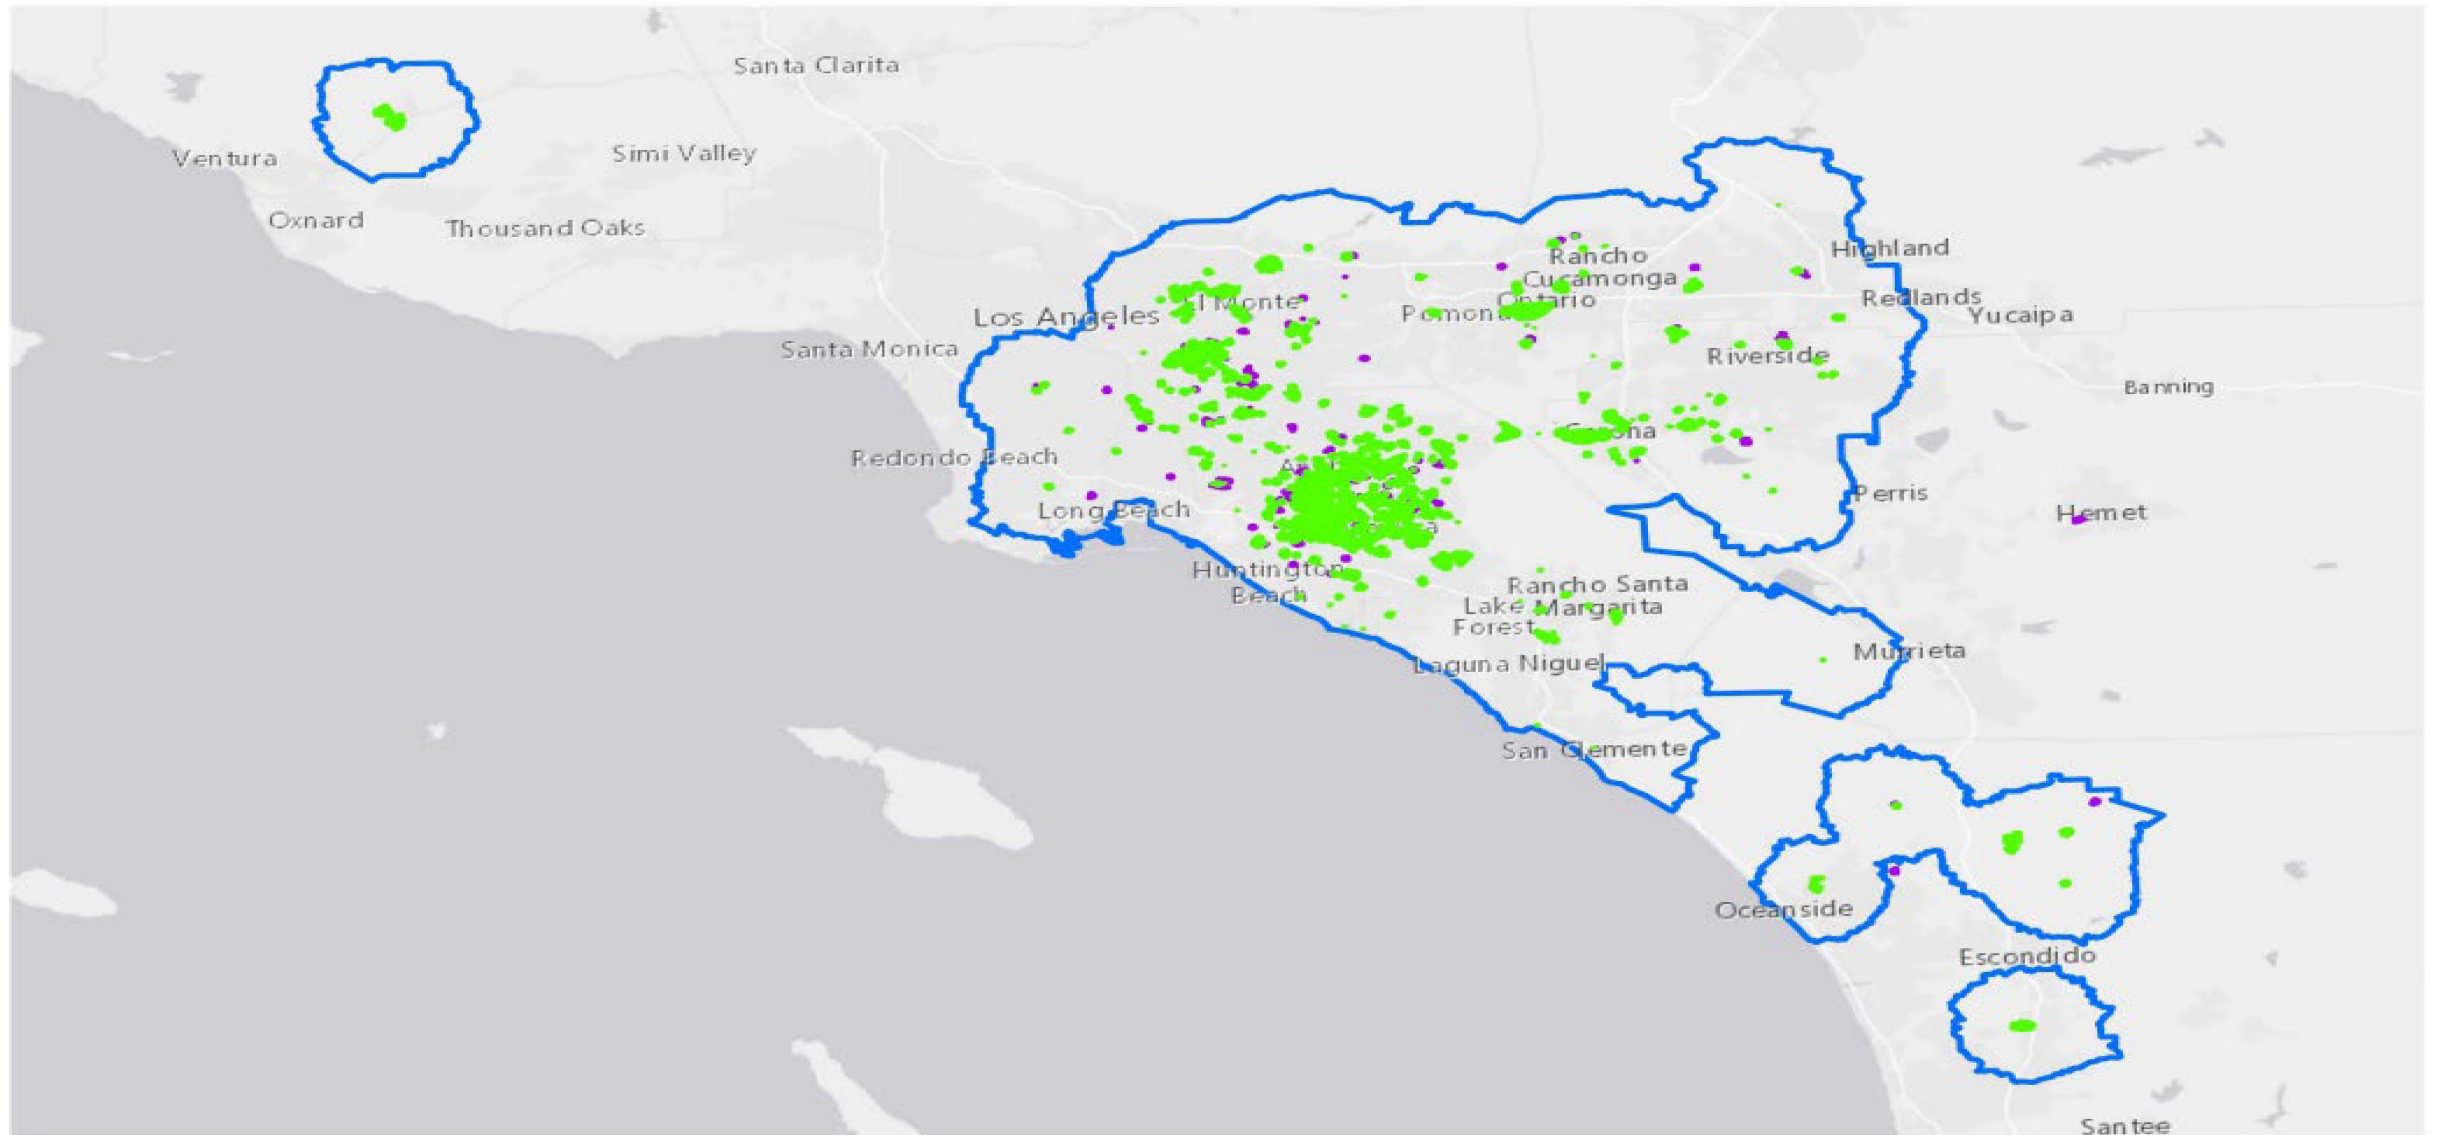

November 19, 2025

Southern District

HLB Detection Updates

- Detection of an HLB+ tree at a residential property in Murrieta, Riverside County.
 - Prior site where CLas+ adult ACP was detected in July.
 - The detection led to an expansion of the current quarantine boundary.
 - No commercial grove within 3 miles from the detection site.
 - Biocontrol agents were released in the area in August and September.
- Multiple rounds of warrants were executed in Orange, Los Angeles, and Riverside counties to remove HLB+ trees from the refusal properties.
- A public meeting was conducted on October 28 to treat delimitation areas in Los Angeles, Orange, Riverside, and San Bernardino counties.

HLB Quarantine and
Treatment Area
10/24/2025

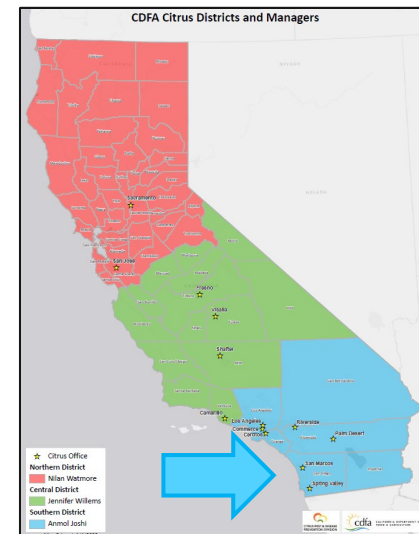

-  HLB Quarantine Area
-  HLB Treatment Area
-  Mandatory
-  Non-mandatory

Southern District
