- This meeting is open to the general public –

**AGENDA**

- |  |                                   |
|--|-----------------------------------|
| 1. Call to Order, Roll Call, Introductions                               | Dr. Etienne Rabe, Chair           |
| 2. Review of Scientific Assumptions-Workload, Staff Needs, Costs         | Nick Condos                       |
| a. Annual Lab Capacity   |                                   |
| b. Risk-Based Survey   |                                   |
| c. Delimitation Survey   |                                   |
| d. Tree Removal  |                                   |
| e. Treatment around HLB Positives  |                                   |
| f. Area-wide Buffer Treatment  |                                   |
| 3. Strategy 1-Quickly Detect and Eradicate Diseased Trees                |                                   |
| a. Cost/Benefit Analysis Update  | Karen Jetter                      |
| b. Review “exposure” data analysis                                       | Brianna McGuire                   |
| 4. Strategy 2-Control Movement of Psyllids around the State; Regulations |                                   |
| a. Post-Harvest Quarantine Treatment of Bulk Citrus                      |                                   |
| i. Ethyl Formate Fumigate Efficiency, Use Restrictions, Registration     | Jim Cranney/Dr.Beth Mitcham       |
| ii. Evergreen Fogging Efficiency, Use Restrictions, Registration         | Dr. Spenser Walse/<br>Joel Nelsen |
| b. Bulk Citrus Regional Quarantine Risk Model Matrix                     | Nick Condos                       |
| c. Proposed Criteria to Remove County from ACP Regional Quarantine       | Aaron Dillion                     |
| 5. Strategy 3-Suppress Asian Citrus Psyllid Population                   |                                   |
| a. HLB Data Analysis and Treatment Zone Radius Recommendation            | Dr. Tim Gottwald                  |
| b. Research on Area-wide buffer Treatment Efficacy and Duration          | Dr. Beth Grafton-Cardwell         |
| 6. Strategy 4-Improve Data Technology, Analysis, and Sharing             |                                   |
| a. Bactericide White Paper   | Dr. Jim Adaskaveg/<br>Jim Cranney |

---

Note: All speakers from the audience are limited to three minutes. For more information, please contact the Plant Health and Pest Prevention Services Division, 1220 N Street, Sacramento, CA 95814, (916) 654-0317. This agenda is available on the Plant Health Pest Prevention Services Division website at <http://www.cdfa.ca.gov/citruscommittee>.

This meeting is accessible to the physically disabled. A person who needs a disability-related accommodation or modification in order to participate in the meeting may make a request by contacting Victoria Hombaker at (916) 654-0317 or sending a written request to her at the California Department of Food and Agriculture, 1220 N Street, Sacramento, CA 95814 or [victoria.hombaker@cdfa.ca.gov](mailto:victoria.hombaker@cdfa.ca.gov).
