

CALIFORNIA DEPARTMENT OF
FOOD & AGRICULTURE

Karen Ross, Secretary

DATE: July 23, 2013

TO: All County Agricultural Commissioners

SUBJECT: **PHYTOSANITARY ADVISORY NO. 20-2013**
Follow-Up - Mexico Phytosanitary Restrictions –Sawn Wood Exports

This is a follow-up to [PSA No. 19-2013](#). The USDA was able to negotiate a single Additional Declaration (AD) instead of the two listed in Notice of Modification (NOM) 016. The single AD covers HT/KD lumber and fumigations and can be found in the Phytosanitary Export Database (PExD). The negotiated AD is "The lumber in this consignment has no bark, has been subjected to a phytosanitary treatment, and is free of quarantine pests within accordance to NOM-016."

If you have any questions regarding this advisory, please contact Jim Lawrence at (760) 485-4499; email james.lawrence@cdfa.ca.gov or contact your local USDA Export Certification Specialist.
