

Note: The references below are intended to assist candidates in preparation for the oral portion of the exams listed; however, they do not contain all information necessary to be successful in passing the exams (i.e., simply memorizing and reciting the reference material to the exam panel is not likely to achieve a passing score).

Candidates should be mindful of the “Scope of the Examinations” sections in the [Exam Bulletins](#) and be able to relate the references as they apply to county personnel administration; program planning and enforcement; budgeting; public, industry and interagency relations; and government structure.
