

CALL HANDLER CERTIFICATION FORM

Any call handler who makes a call upon a designated supply handler for market milk must file a certification form with the California Department of Food and Agriculture (Department) and with the designated supply handler. The certification form will stipulate that the market milk requested will be used for Class 1 purposes and that the call handler meets the standards of a call handler. The following is a sample certification form. The terms "call handler" and "designated supply handlers," as well as the requirements when making a call for milk are all specified in the enclosed Milk Movement Provisions.

In making a call, the first listed designated supply handler for the current week must be contacted. Only if this handler states that they have already met the 100% utilization requirement can the next handler be called.

Certification of a Call Handler's Request for Bulk Market Milk from a Designated Supply Handler

Call Handler Requesting Milk _____

Designated Supply Handler Asked to Supply Milk _____

Call Handler certifies that it meets the standards of a call handler as specified in Section 100.7 of the Stabilization and Marketing Plan for Market Milk. It satisfies the requirement of 80% or more Class 1 usage and less than 5% Class 4a and 4b usage during the seven-day period immediately prior to the date of making this call. The market milk it has requested will be used only for Class 1 purposes.

Name _____ Title _____

Signature _____ Date _____
