USDA projects that for the fourth quarter of 2011 compared to the third quarter of 2011, U.S. milk cow numbers will increase to 9.220 million head, production per cow will decrease to 5,260 pounds; the net effect would be decreased milk production to 48.5 billion pounds.

Department Suspends Assessments

The California Food and Agricultural Code authorizes the Secretary of Food and Agriculture to establish an assessment of Milk Stabilization Administrative Fees on Grade A market milk and Grade B manufacturing milk sold in commercial trade channels to fund the operations of the Dairy Marketing Branch. Effective for milk produced on or after January 1, 2012, the Secretary is suspending both of the Milk Stabilization Administrative Fees until such time as the program's cash balance is drawn down to a three-month reserve. Given average costs of administering the program, it is anticipated that the Fees will be suspended for a minimum of six months.

All Data displayed in the Dairy Information Bulletin is subject to change and/or revision.
