CALL HANDLER CERTIFICATION FORM

Any call handler who makes a call upon a designated supply handler for market milk must file a certification form with the Department and with the designated supply handler. The certification form will stipulate that the market milk requested will be used for Class 1 purposes and that the call handler meets the standards of a call handler. The following is a sample certification form.

In making a call, the first listed designated supply handler for the current week must be contacted. Only if this handler states that they have already met the 85% utilization requirement can the next handler be called.

Certification of a Call Handler's Request for Bulk Market Milk from a Designated Supply Handler

Call Handler Requesting Milk _____

Designated Supply Handler Asked to Supply Milk_____

Call Handler certifies that it meets the standards of a call handler as specified in Section 100.7 of the Stabilization and Marketing Plan. It satisfies the requirement of 80% or more Class 1 usage and less than 5% Class 4a and 4b usage during the seven-day period immediately prior to the date of making this call. The market milk it has requested will be used only for Class 1 purposes.

Name _____ Title_____

Signature _____ Date _____
