

Whey Review Committee
Request from February 4, 2008 meeting
Item #16
Whey Value Ideas and Concepts from USDA

During discussion at the February 4, 2008 meeting it was asked if Bill Wise from USDA could past hearings for past proposals on the whey value in pricing formulas.

Information from Bill Wise

- Could find little or no published discussion during order reform on specific whey pricing alternatives.
- Most of the discussion centered on why product formula pricing in general was being recommended.
- During the current hearing on Class III and IV National All Jersey and Great Lakes Cheese offered testimony on whey pricing. This can be found on the AMS web-site.
