2:10 ...II LTE 93 NCWM Reports | Most Popular

This compitation includes NIST Handbooks specific to weights and measures, legal metrology, and laboratory metrology subject areas.

The NIST Handbooks are documentary standards developed via a consensus standards development process that involves all stakeholders. They are considered a Technical Report Series of "recommended codes of engineering and industrial practice (including safety codes) developed in cooperation with interested industries, professional organizations, and regulatory bodies." Learn more about the NIST Handbooks and their history <u>here</u>.
