

## **Job Opportunity - Measurement Standards Specialist III (Limited Term)**

**General Position Description:** Measurement Standards Specialist III (MSS III) position in the Division of Measurement Standards, Department of Food and Agriculture. The MSS III position enforces the Business and Professions Code and coordinates the activities of the Division of Measurement Standards with the work of county sealers of weights and measures and with other Federal, State and county agencies involved in this work. Incumbents provide guidance on technical and regulatory requirements to manufacturers regarding design and performance criteria. For a complete description, visit the [CalHR website](#).

Note: This is a Limited Term MSS III position (Fiscal Years 2014/ 15 and 2015/16).

**Salary Range:** \$4,106.00 - \$5,140.00 per month

**Job Location:** Two MSS III positions in the Division's Sacramento office (Sacramento County), and two MSS III positions in Division's Anaheim office (Orange County).

**Program Description:** The CDFA Cap and Trade Program within the Division of Measurement Standards implements an Alternative and Renewable Fuels Program (Program) funded from the Greenhouse Gas Reduction Fund created under Assembly Bill 32 (Ch. 608, Stats. 2013). The purpose of the Program is to develop the fuel quality specifications, field sample protocols, laboratory test methods and examination procedure outlines for low carbon and renewable agricultural biofuels and zero emission fuels. The Program will engage in research activities to optimize biofuels quality specification and will conduct rulemaking to implement the necessary quality- and quantity-related regulations.

**Specific Position Description:** Under the direction of an Environmental Program Manager I, this position is responsible for performing technical analyses, tests, and inspections of electronic and mechanical weighing and measuring instruments; developing and maintaining the physical and regulatory standards for these devices in the State's Metrology Laboratory; providing training and advisory services to State and county weights and measures officials on the proper inspection and certification of weighing and measuring instruments. For a complete description, search by job title (Measurement Standards Specialist III) on the [California Vacancy Search \(VPOS\)](#).

**How to Apply:** Please submit a standard [State application \(STD 678\)](#) to:

Division of Measurement Standards  
ATTN: Amber Schaffner  
6790 Florin-Perkins Road, Suite 100  
Sacramento, CA 95828
