Mike Cleary, Director

**Specialized Business Solutions (SBS)**  
**Electronic Cash Register**  
**Model: Keystroke POS**

**Application:** This software is designed for use with a generic PC computer interfaced to a single certified and compatible non-computing scale with an integral or remote customer display.

**Identification:** The required information is displayed when the device is initialized. Additionally, the information can be accessed at any time when the SBS icon is selected in the Utilities menu bar.

**Sealing:** The ECR software does not require provisions for sealing. Provisions for sealing metrological parameters are provided on the certified and compatible scale.

**Operation:** The cash register is capable of accepting pricing information for both weighed and non-weighed items by use of price look-up (PLU) numbers. This system does not display an active weight on the operators screen.

**Test Conditions:** The Model Keystroke POS, ECR software was loaded onto a generic PC, a CAS Model PD-1 scale (Certificate of Conformance Number 92-174), and Epson Model M129C printer were interfaced with the PC. The emphasis of the evaluation was on the interaction of the cash register and scale, the operation and features of the cash register, and the receipt issued by the cash register.

Results of the evaluation indicate the device complies with applicable requirements.

**Type Evaluation Criteria Used:** Title 4, California Code of Regulations, 2004 Edition

**Tested By:** Dan Parks (CA)
