Standard Features and Options

Primary weight indications and motion detection are provided by a compatible, certified indicating element.

Operator display with live weight indication
Receipt printing capability
Stored tare capability
Gross/tare/net display

Minimum system requirements: Computer display
 Alphanumeric keyboard
 Network server (for IT support only, no remote configuration)
 Printer
 Local terminal and network configuration

 Operating system: Windows XP or higher
 Program Language: ABAP
 Processor: 1.2 GHZ, 2 GB RAM, 60 GB Hard disk

Note: The user of this system is responsible for correct Weighmaster certificate content and compliance with applicable Weighmaster laws.

This device was evaluated under the California Type Evaluation Program (CTEP) and was found to comply with the applicable requirements of California Code of Regulations for "Weighing and Measuring Devices." Evaluation results and device characteristics necessary for inspection and use in commerce are on the following pages.

Effective Date: May 16, 2011

Kristin J. Macey, Director

Dole Food Co
Weigh Station Application Software
Model: MYAGRI FOR DOLE PACKAGED FOODS, LLC

Application: General purpose truck weighing system when interfaced with approved and compatible certified indicating and weighing elements.

Identification: The identification information is continuously displayed.

Sealing: There are no sealable parameters controlled by this device.

Operation: The operator logs onto the system using a pre-assigned password. The operator records and stores the gross weight of a truck. The truck is emptied and returns to the weighing platform to complete the transaction. The truck does not have to return if pre-determined tares are used. All tares based on pre-determined tares must be preceded by "P.T." on the weight ticket. A weight ticket is printed with the following information: gross, tare, and net weight, time, date, location of transaction, truck ID, trailer ID, and operator ID.

Test Conditions: The scale system controller software, Model MYAGRI FOR DOLE PACKAGED FOODS, LLC, was interfaced with a Cardinal Model 788 indicator, Cardinal weighing element, Model 10070 SRC. Several vehicle scale weighing operations were carried out at a field location and several weigh tickets were printed for confirmation with Weighmaster requirements. The emphasis of the evaluation was on device design, operation, marking requirements, interaction with vehicle indicating and weighing elements, customer display, printed information and compliance with accurate weighing requirements.

Results of the evaluation indicate the device complies with applicable requirements.

Type Evaluation Criteria Used: Title 4, California Code of Regulations, 2011 Edition

Tested By: J. Roach (CA)

The screenshot shows the 'Fruit Reception' form in the MYAGRI FOR DOLE PACKAGED FOODS, LLC software. The form is titled '/AGRI/FR_022 - Fruit Reception' and includes fields for Company Code (1900), Certificate # (000000940), Fiscal Year (2011), Status (Saved), Document class (FRUI), Mode (Manual), Manufacturer (Dole Food Co), Model (MYAGRI FOR DOLE PACKAGED FOODS, LLC), Version (701), and Cert. approval no (XXXX-11). The 'Shipping Information' section includes fields for Equipment (T2101), EquipCategory (External Trucks), Weight/Max.Load (10000 / 80000 lb), License (9891961), Description (Button tare on tractor), Partner (BP00010 Bill Carriers), and Driver. The 'Weight' section includes Gross Weight (85500 lb), Empty weight (21820 lb), WT Fruit+Cont (63680 lb), Net Weight (57960 lb), Empty Cont. Tare (00 lb), Fruit+Full Cont (63680 lb), Avg. Cont. Wt (1317.27 lb), and Weight Scale (ATW1). The 'References' section includes Field Tag, Functional loc. (US-ATW-3007-LG001), Reference, Commodity (247 Raw Freestone Peach), Grade Tag, Grade Date/Time, Inspector, Batch Id./Batch. (0940 / 11116A0940), Grower/Vendor (0000400060 Cipponeri Orchards), Variety (244 Ryan Sun), and Type reference (B).
