

Exhibit: SOS – NP Outdoor Nursery

**Provisions for the movement of sweet orange scab regulated nursery stock
grown and maintained outdoors.**

Establishment agrees to the following:

1. Intrastate Movement Within the Contiguous Sweet Orange Scab (SOS) Quarantine Area

Establishment may only move, ship, sell, or distribute regulated nursery stock within the contiguous SOS quarantine area. An orange SOS quarantine zone-specific tree tag must be affixed to each individual tree/plant.

2. Interstate Movement from an SOS Quarantine Area

Establishment may ship regulated nursery stock to a non-commercial citrus-producing state, or to a state quarantined for SOS and contiguous to California's quarantine area(s) if the following criteria are met:

- a. The identity of each shipment of regulated nursery stock is maintained with an individually numbered shipment ticket created by the nursery containing the following information:
 - i. Name of nursery, landowner agent, or lessee
 - ii. Origin address
 - iii. License tag number
 - iv. Number of plants contained in the shipment
 - v. Destination address
 - vi. Date of shipment
- b. Regulated nursery stock is inspected by an SOS Program official within five days prior to shipment. If no SOS symptomatic plants are found, the plants may be shipped following treatment with one of the below fungicides, per label requirements:
 - i. Imazalili;
 - ii. Thiabendazole; or
 - iii. Fludioxonil plus Azoxystrobin.
- c. Each shipment must be accompanied by a Limited Permit issued by the SOS Program official.

3. Infested Nursery Stock

- a. Establishment shall hold all nursery stock suspected to be infected with SOS and shall notify the SOS Program immediately.
- b. Suspect nursery stock shall be tagged and segregated. Nursery stock may be voluntarily destroyed under SOS Program supervision.
- c. If lab results are negative for SOS, all nursery stock will be released from hold.
- d. If lab results are positive for SOS, the following will be implemented:
 - i. All confirmed positive SOS infected nursery stock shall be destroyed.
 - ii. All other regulated nursery stock will remain on hold.
 - iii. Establishment shall not apply fungicides that may mask any SOS symptoms.
 - iv. SOS Program may conduct a follow-up inspection.
 - a. If all plants are asymptomatic, the plants may be released from hold.

- b. If suspected SOS positive plants are found, Number 4 (a-d) of this exhibit shall be implemented.

4. Inspections

Allow SOS Program officials to inspect the premises to ensure compliance with this agreement.

5. Records

Maintain records for a minimum of three years of all SOS host and green waste shipments leaving the premises. Establishment shall make such records available to SOS Program officials immediately upon request.

6. Training

Ensure all employees receive training to be compliant with all specifications of the compliance agreement and this exhibit.

7. Information Posting

Establishment shall display informative posters and associated SOS information in a conspicuous location if supplied by the SOS Program.

8. Violation

Violation of any terms of the compliance agreement or this exhibit shall result in the immediate suspension of the compliance agreement until an investigation is completed and for a minimum period of two weeks. The compliance agreement may be reinstated at the discretion of the SOS Program and upon Establishment's satisfactory demonstration that all compliance measures are met.

SPECIAL INSTRUCTIONS:

Printed name (Owner/Manager)

Signature of Establishment

Date

Failure to comply with any stipulation outlined above may result in civil penalties pursuant to California Food and Agricultural Code Section 5705 and/or revocation of this agreement.
