Department of Food and Agriculture
Safe Animal Feed Education Program

Formulas

*Formulas need to be verified and reviewed to ensure safety and suitability for animal species and class.**

Formulation

Objective:

To ensure that all feed has the appropriate nutrients needed for the animal that it is designed for and will result in a quality product.

Person Responsible:

Designated Formulator and Plant Manager

Procedure:

Formulation will be completed by designated persons specific to species and type of feed.

All formulas will be reviewed and initialed by the Plant Manager for safety, regulatory compliance, compatibility with equipment limitations, and suitability for the intended species and the specific class of animal, prior to entering production and initialed.

Corrective Action:

Corrective actions will be recorded if an unauthorized person is delivering formulas or if formulas enter the production phase without being reviewed by the Plant Manager.
