ARTICLE 1. STANDARDS AND LABELING

§ 2300.1. Definitions

... 

(l) The term “tackifiers” means a substance which is applied to mulches, soils, and/or seeds to promote adhesion.

Note: Authority cited: Sections 407 and 14502, Food and Agricultural Code.
Reference: Sections 14601 and 14631, Food and Agricultural Code; and Section 6254.7, Government Code.

§ 2304. Biotics.

All fertilizing materials for which claims are made relating to organisms, enzymes or organism by-products are subject to the registration requirement of Section 14601 of the Food and Agricultural Code.

(a) In addition to the information required by Section 14601 of the Food and Agricultural Code, the label of each product which contains organisms, enzymes, and/or other biologically active by-products of organisms for which claims are made shall state:

(a) (1) Species name of each microorganism, and name of each enzyme or organism by-product, if claimed, and strains as part of the statement of composition, and name of each by-product, if claimed.

(b) (1A) The number of viable units of each microorganism per cubic centimeter, milliliter, or per-gram for dry material.

(2B) The concentration in percentage of activity units of each enzyme or other organism by-products claimed per cubic centimeter, milliliter, or gram.
(C) The concentration in percentage of each organism by-product.

(c3) The expiration date for use.

(d4) Storage conditions.

(b) The following supporting documentation is required for verifying label claims:

(1) **Written description of** A generally accepted laboratory method(s) for both identifying and quantifying assaying the viable and attenuated units, enzyme activities, or organism and the by-products claimed. ; and

(2) A copy of the laboratory/certificate of analysis or alternate methods supporting proof of label claims, listed in subsection (a)(1) and (a)(2). The analysis results shall be no more than five (5) years old at the time of registration/renewal approval. must be submitted with the registration application.

(c) When used for the purpose intended, the product must not be pathogenic to plants or pathogenic to animals which may consume the treated plant.

(d) Biotic products claims are acceptable based on efficacy data.

**§ 2306. Fish Emulsion. Biochar.**

When a product is labeled as fish emulsion, it shall contain a minimum of 40 percent total solids.

a) When a guarantee of biochar appears on the label, the feedstock shall be designated by prefixing the term biochar with the feedstock from which it was produced. When more than one feedstock is used, all feedstocks greater than 10% shall be listed in order of decreasing amounts present.

b) A laboratory analysis for total carbon is required for registration to verify that the ingredient meets the definition of biochar as stated in §14513.5 of the FAC. The laboratory analysis results shall be no more than five (5) years old at the time of registration/renewal approval.

Note: Authority cited: Sections 407, 14502, 14601, and 14631, Food and Agricultural Code.

Reference: Sections 14502, 14513.5, and 14631, Food and Agricultural Code.
§ 2308. Packaged Soil Amendments.

(e) Soil amendments may contain wetting agents and/or tackifiers.

(1) The claim “wetting agent added” and/or “tackifier added” can be included in the list of ingredients in lieu of made without guaranteeing the specific wetting agent/tackifier or the percentage of such, but the chemical name of the wetting agent and/or tackifier must be submitted at the time of registration along with the analytical method.

§ 2322. Administrative Penalty Guidelines.

First violation shall receive a notice of warning / notice of violation with 30 days to comply. For each subsequent violation, the violations matrix for FAC § 14681(a) and/or (c) applies as follows: $1,000 for the second violation. $2,500 for the third violation. $5,000 for each subsequent violation. For violations that arise from fraud, willful misconduct, gross negligence, or are a threat to public safety, the secretary shall assess a penalty of $5,000 for the initial or any subsequent violation.
