## **Egg Container Brand Registration Information**

The brand used on an egg container must be identical to the term and/or symbol requested.

Colors cannot be registered as part of the egg container brand.

The embossed or imprinted brand should be legible and conspicuously located on the container's side. Other information, if included on the placard or display area, must be totally separate from the brand designation (as on a separate line, or by spacing, or by use of a dash, bar or other symbol).

Contact one of the District Supervisors listed below should you require further information or assistance.
