

Best Management Practices for Tree Fruit and Nut Production: A Video

FREP Contract # 94-0463

Project Leaders

Thomas Doerge
Formerly with University of Arizona

Larry Klaas
AGCOM International

Objective/Summary

The objective of this project was to produce a 20-to-30 minute broadcast quality educational videotape, with an accompanying handbook, showing tree fruit and nut growers how to manage N to maximize yield, while minimizing the potential for ground water pollution by nitrates.
