

## **Brewers' and Distillers' Products** (January 1<sup>st</sup>, 2014 – December 31<sup>st</sup>, 2014)

### Dry Grains

15 assay reports were obtained for Brewers' and Distillers' Products (for dry grains) for the 2014 year.

-Of these samples, 1 Label Violation (Incorrect Labeling) **FAC 2694(e)** occurred.

### Wet Grains

9 assay reports were obtained for Brewers' and Distillers' Products (for wet grains) for the 2014 year.

-Of these samples, 0 violations occurred.

### **§2778. Brewers' and Distillers' Products**

(a) Brewers Dried Grains is the dried extracted residue of barley malt alone or in mixture with other cereal grain or grain products resulting from the manufacture of wort and may contain pulverized dried spent hops in an amount not to exceed 3.0 percent, evenly distributed.

(b) Brewers Wet Grains is the extracted residue resulting from the manufacture of wort from barley malt alone or in mixture with other cereal grains or grain products. The guaranteed analysis shall include the maximum moisture.

(k) Distillers Dried Grains is the dried grain or grain mixture after the removal of ethyl alcohol by distillation from the yeast fermentation by separating the resultant coarse grain fraction of the whole stillage. The predominating grain shall be stated as the first word in the name.

(l) Distillers Dried Grains with Solubles is the product obtained after the removal of ethyl alcohol by distillation from the yeast fermentation of a grain or a grain mixture by condensing and drying at least  $\frac{3}{4}$  of the solids of the resultant whole stillage. The predominating grain shall be stated as the first word in the name.

(m) Condensed Distillers Solubles is the condensed thin stillage fraction after the removal of ethyl alcohol by distillation from the yeast fermentation of a grain or a grain mixture. The predominating grain shall be stated as the first word in the name.

### **§ 2694. Label Statements.**

The tag or label shall contain a legible and plainly printed statement which certifies to all of the following:

(a) Minimum percent of crude protein.

(1) Commercial feeds containing non-protein nitrogen must be labeled in accordance with Section 2707.

(b) Minimum percent of crude fat.

(c) Maximum percent of crude fiber.

(d) Maximum percent of ash.

(1) Guarantees for the minimum and maximum percentage calcium, minimum percentage phosphorus, and maximum percentage of sodium may be stated in lieu of the ash guarantee.

(2) In the case of any formula feed which contains more than 9.0 percent ash, the minimum and maximum percentage of calcium, minimum percentage of phosphorus and maximum percentage of sodium shall be guaranteed, if present.

(e) Recognized official name of each ingredient in order of decreasing amounts present. The name of each ingredient shall appear in the same size, style and color and shall not be misleading. The following descriptive terms used in identification of ingredients in article 14 are not required in the list of ingredients unless it expressly states: "Mechanically Extracted," "Solvent Extracted," or "Feed Grade."
