

Soluble Silicon Labeling Aid

1. If your product is classified as a **Beneficial Substance**, the Soluble Silicon guarantee should be located under the heading “**CONTAINS BENEFICIAL SUBSTANCE**”

CONTAINS BENEFICIAL SUBSTANCE

Soluble Silicon (Si) (from {source} - *optional*) X%

2. If your product guarantees at least one plant nutrient, the Soluble Silicon guarantee should be listed under the heading “**ALSO CONTAINS BENEFICIAL SUBSTANCE**”

ALSO CONTAINS BENEFICIAL SUBSTANCE

Soluble Silicon (Si) (from {source} - *optional*) X%

The Soluble Silicon guarantee must be based on CDFA method. The method can be referenced at: <https://www.cdfa.ca.gov/is/cac/pdfs/RA-SP-Silicon-R0.pdf>

Note:

- 1) The investigational allowance for soluble silicon guarantees is 10% of the guaranteed amount. (Title 3, California Code of Regulations Section 2317.5(c))
- 2) Foliar application is acceptable for soluble silicon.
- 3) Examples of acceptable sources of soluble silicon: sodium silicate, potassium silicate, wollastonite, diatomaceous earth, volcanic ash, etc.
Monosilicic acid / orthosilicic acid is not a recognized source of soluble silicon.
