

# CDFA: Safe Animal Feed Education Program

---

Information for:

Veterinarians who plan on issuing medicated VFD feed

# FDA VFD Video Overview for Veterinarians

<http://www.fda.gov/AnimalVeterinary/SafetyHealth/AnimalFeedSafetySystemAFSS/ucm529920.htm>

VFD- **V**eterinary **F**eed **D**irective

VCPR- **V**eterinarian-**C**lient-**P**atient-**R**elationship

## What is a VFD Drug?

---

- A drug that is intended for use in livestock feed that is limited to use under the professional supervision of a licensed veterinarian.

## What is a combination VFD Drug?

---

- A combination of drugs, in which at least one of the drugs is a VFD drug, and the combination must be approved for use in animal feed.
- This combination VFD drug must be used under the professional supervision of a licensed veterinarian.

# Veterinarian-Client-Patient Relationship.

---

- Per the FDA VFD Regulations a valid Veterinarian-Client-Patient Relationship (VCPR) can be defined by either the FDA VFD Regulation definition or as stated below, it can be defined by the individual State definition.
  - (ii) Be operating in the course of the veterinarian's professional practice and in compliance with all applicable veterinary licensing and practice requirements, including issuing the VFD in the context of a veterinarian-client-patient relationship (VCPR) as defined by the State.

# California's definition of a Valid VCPR per 16 CCR § 2032.1

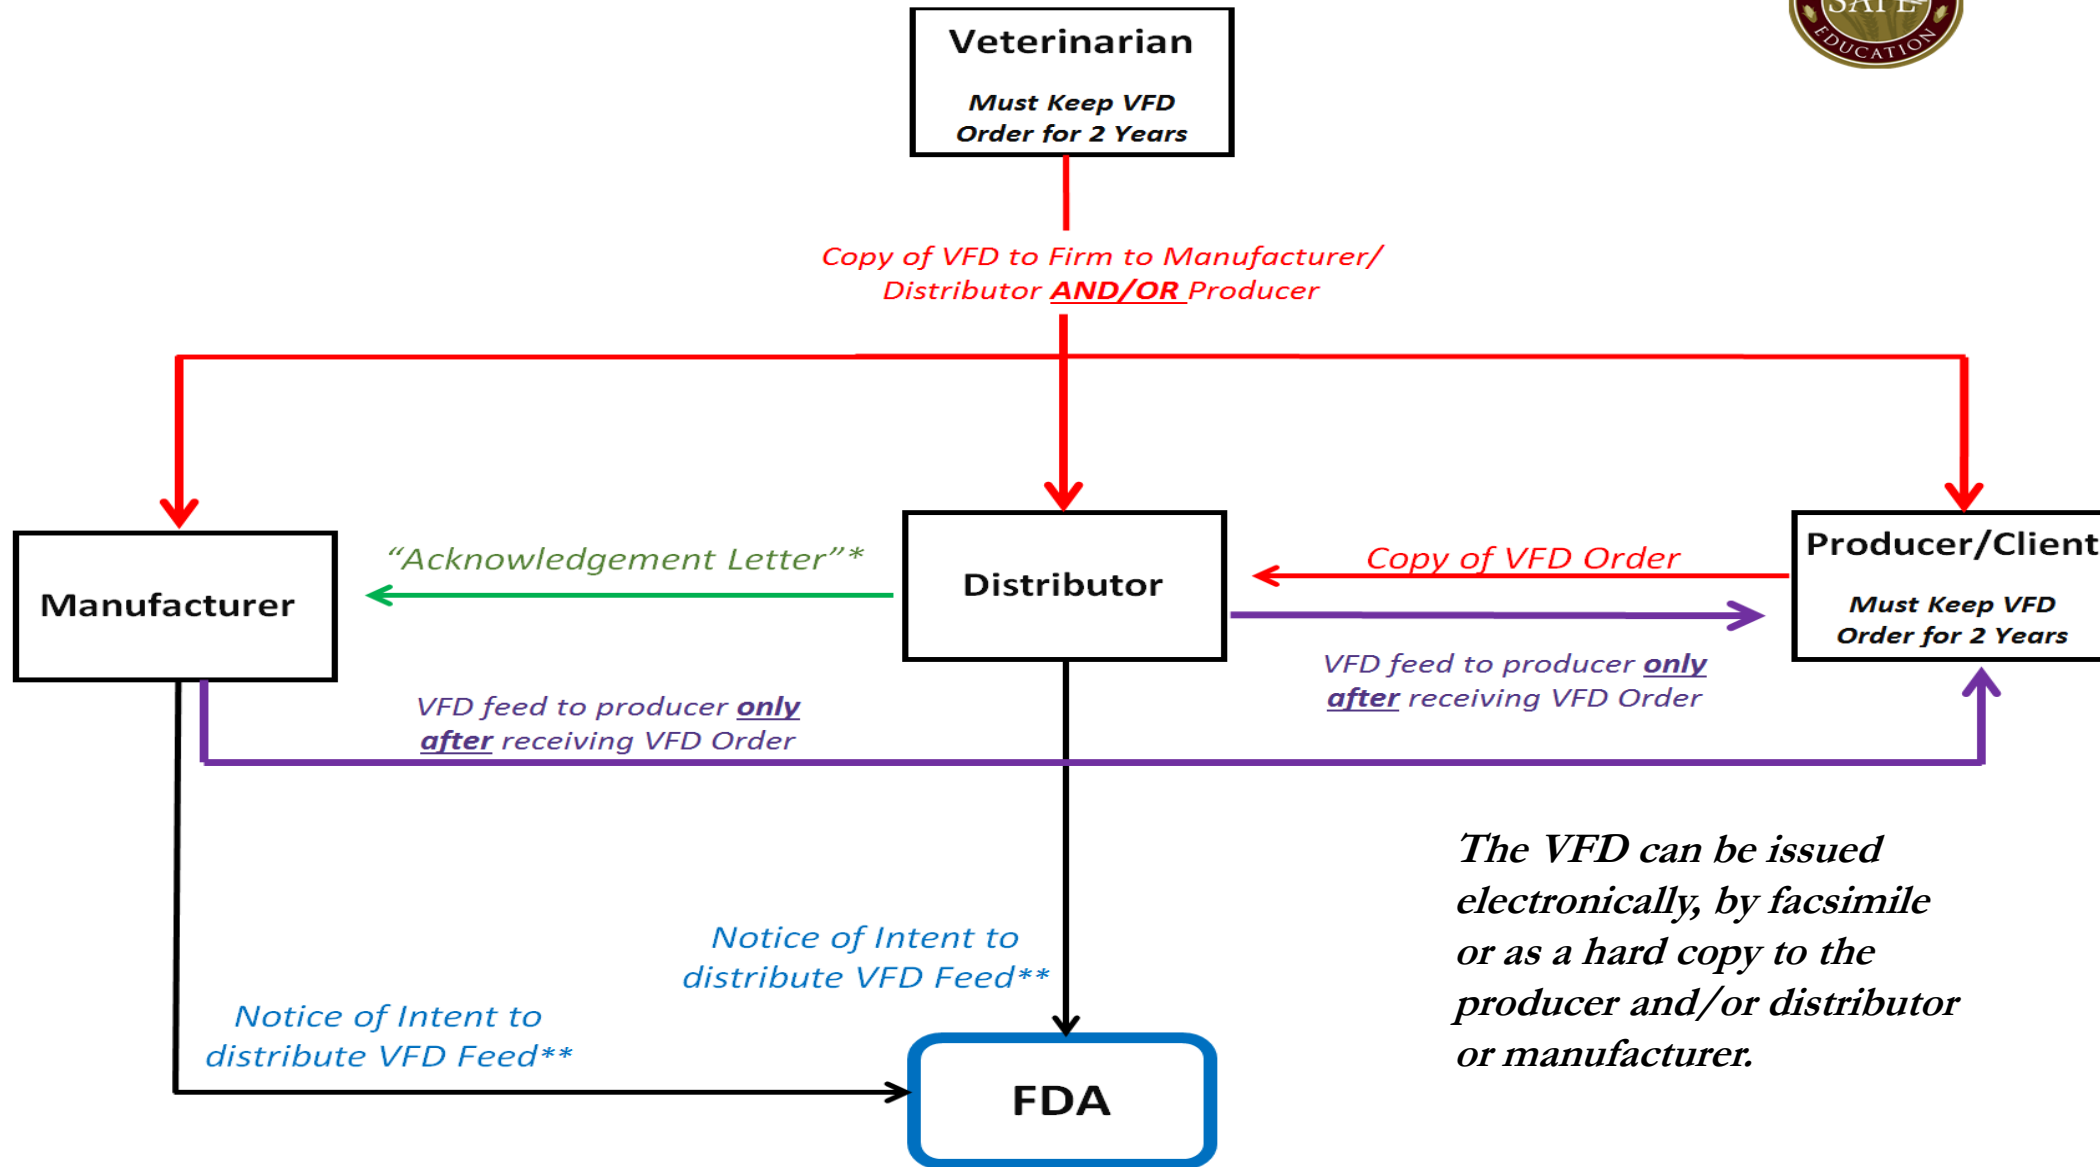

- **b) A veterinarian-client-patient relationship shall be established by the following:**
  - (1) The client has authorized the veterinarian to assume responsibility for making medical judgments regarding the health of the animal, including the need for medical treatment,
  - (2) The veterinarian has sufficient knowledge of the animal(s) to initiate at least a general or preliminary diagnosis of the medical condition of the animal(s). This means that the veterinarian is personally acquainted with the care of the animal(s) by virtue of an examination of the animal or by medically appropriate and timely visits to the premises where the animals are kept, and
  - (3) The veterinarian has assumed responsibility for making medical judgments regarding the health of the animal and has communicated with the client a course of treatment appropriate to the circumstance.

# Clarification of Refills

---

- Refills on VFDs may only be authorized if the drug approval, conditional approval, or index listing states that refills are permitted.
- VFD refills are allowed if the VFD order has a designated number of allowable refills.
- **Currently there are no VFD drugs approved for refills.**

# Veterinary Feed Directive (VFD) Document Trail

***\*An “Acknowledgement Letter” must be submitted to the manufacturer of the VFD Feed from the distributor of the VFD Feed.***

---

### **The “Acknowledgement Letter”**

An “acknowledgement letter” is a written (nonverbal) communication provided to you (consignor) from another distributor (consignee). Such letter, provided either in hardcopy or through electronic media, must affirm: (1) that the distributor will not ship such VFD feed to an animal production facility that does not have a VFD; (2) that the distributor will not ship such VFD feed to another distributor without receiving a similar written acknowledgment letter; and (3) that the distributor has complied with the distributor notification requirements. If you issue VFD feed only to a client under a VFD order, you will not need to have an acknowledgement letter.

**An Acknowledgement letter is required from each manufacturer supplying feed requiring a VFD.**

***\*\*Notice of Intent to distribute VFD Feed is submitted one time only to the FDA.***

---

**The “One-Time” Distributor Notification**

It must include the following:

- The distributor's complete name and business address;
- The distributor's signature or the signature of the distributor's authorized agent; and
- The date the notification was signed.

The notification should be mailed to:

Food and Drug Administration  
Center for Veterinary Medicine  
Division of Animal Feeds (HFV-220)  
7519 Standish Place  
Rockville, MD 20855

or faxed to: 240-453-6882

*All VFD Feed must be labeled with the following statement:*

***“Caution: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.”***

### ***Drugs Transitioning From OTC to VFD Status***

<b>Established drug name</b>	<b>Examples of proprietary drug name(s) <sup>§</sup></b>
chlortetracycline (CTC)	Aureomycin, CLTC, CTC, Chloratet, Chlorachel, ChlorMax, Chlortetracycline, Deracin, Inchlor, Pennchlor, Pfichlor
chlortetracycline/sulfamethazine*	Aureo S, Aureomix S, Pennchlor S
chlortetracycline/sulfamethazine/penicillin*	Aureomix 500, Chlorachel/Pfichlor SP, Pennchlor SP, ChlorMax SP
hygromycin B	Hygromix
lincomycin	Lincomix
oxytetracycline (OTC)	TM, OXTC, Oxytetracycline, Pennox, Terramycin
oxytetracycline/neomycin*	Neo-Oxy, Neo-Terramycin
penicillin <sup>†</sup>	Penicillin, Penicillin G Procaine
sulfadimethoxine/ormetoprim*	Rofenaid, Romet
tylosin	Tylan, Tylosin, Tylovet
tylosin/sulfamethazine*	Tylan Sulfa G, Tylan Plus Sulfa G, Tylosin Plus Sulfamethazine
virginiamycin	Stafac, Virginiamycin, V-Max

| <u>§558.195 Decoquinatate.</u>                        | <u>§558.355 Monensin.</u>          | <u>§558.612 Tiamulin.</u>                                  |
| <u>§558.198 Diclazuril.</u>                           | <u>§558.360 Morantel tartrate.</u> | <u>§558.618 Tilmicosin.</u>                                |
| <u>§558.205 Dichlorvos.</u>                           | <u>§558.363 Narasin.</u>           | <u>§558.625 Tylosin.</u>                                   |
| <u>§558.235 Efrotomycin.</u>                          | <u>§558.364 Neomycin sulfate.</u>  | <u>§558.630 Tylosin and sulfamethazine.</u>                |
| <u>§558.248 Erythromycin.</u>                         | <u>§558.365 Nequinatate.</u>       | <u>§558.633 Tylvalosin.</u>                                |
| <u>§558.254 Famphur.</u>                              | <u>§558.366 Nicarbazin.</u>        | <u>§558.635 Virginiamycin.</u>                             |
|   | <u>§558.415 Novobiocin.</u>        | <u>§558.665 Zilpaterol.</u>                                |
|   | <u>§558.430 Nystatin.</u>          | <u>§558.680 Zoalene.</u>                                   |

# Clarification on Extra-Label Use

---

- **Prescription drugs cannot be added to feed.**
- **Drugs that are approved for medicated feed can only be used in accordance with the federal approval.**
- **There is NO Extra-label use permitted.**

# Veterinarian Responsibilities

---

- Must be licensed to practice veterinary medicine
- Must be operating in the course of the veterinarian's professional practice and in compliance with all applicable veterinary licensing and practice requirements
- Must write VFD orders in the context of a valid client-patient relationship.

# Veterinarian Responsibilities continued

---

- Must issue a VFD that is in compliance with the conditions for use approved, conditionally approved, or indexed for the VFD drug or combination VFD drug
- Must prepare and sign a written VFD providing all required information
- May enter additional discretionary information to more specifically identify the animals to be treated/fed the VFD feed.

# Veterinarian Responsibilities continued

---

- Must include required information when a VFD drug is authorized for use in a drug combination that includes more than one VFD drug
- Must restrict or allow the use of the VFD drug in combination with one or more OTC drug(s)
- Must provide the feed distributor with a copy of the VFD
- Must provide the client with a copy of the VFD order

# Veterinarian Responsibilities continued

---

- Must provide the client with a copy of the VFD order
- Must retain the *original* VFD for 2 years
- Must provide VFD orders for inspection and copying by FDA upon request

# Preventing Antibiotic Residues

---

- It is critical that the producers follow all withdrawal times, special instructions, and cautionary statements on the VFD.
- Example: Withdrawal Time: This VFD feed must be withheld 5 days prior to slaughter.
- There is no extra-label use of a VFD feed. It must be fed according to the instructions on the feed label.

# Example VFD Order Form

---

# What must be included on the VFD?

---

- Veterinarian's name, address, and telephone number
- Client's name, business or home address, and telephone number
- Premises at which the animals specified in the VFD are located
- Date of VFD issuance
- Expiration date of the VFD
- Name of the VFD drug(s)

# What must be included on the VFD?

---

- Species and production class of animals to be fed the VFD feed
- Approximate number of animals to be fed the VFD feed by the expiration date
- Indication for which the VFD is issued
- Level of VFD drug in the feed and duration of use
- Withdrawal time, special instructions, and cautionary statements necessary for use of the drug in conformance with the approval

# What must be included on the VFD?

---

- statement: “Use of feed containing this veterinary feed directive (VFD) drug in a manner other than as directed on the labeling (extralabel use), is not permitted”
- An affirmation of intent for combination VFD drugs as described in 21 CFR 558.6(b)(6)
- The veterinarian’s electronic or written signature

# Optional information that can be included

---

- A specific description of the location of the animals (e.g. pen number, barn, etc.)
- The approximate age range of the animals
- The approximate weight of the animals
- Any other information that the vet deems appropriate to identify the animals at issue

# FAQ

---

- **Is January 1, 2017 a firm date or is there a phase out period for VFD feed?**
  - Yes, as of January 1, 2017 all “medically important antibiotic” feed will need a VFD to be fed. There is no phase out period
- **Does all inventory of medicated feed that will require a VFD as of January 1, 2017 need a VFD to be fed after January 1, 2017?**
  - YES
- **Who is responsible for ensuring the VFD expiration dates are followed?**
  - The manufacturer can no longer distribute under an expired VFD order.
  - The producer cannot feed under an expired VFD feed.

# FAQ cont'd

---

- **Should the VFD have the proprietary name (trade name) or established name of the VFD drug(s)?**
  - The VFD drug name is required to be included on the VFD. The veterinarian can either write an established drug name or the specific trade name of a VFD drug.
  - If a VFD drug is listed by a proprietary name (trade name), then the veterinarian may choose to specify that a substitution by the feed manufacturer is not allowed (i.e. checking the box for “[ ] Drug product substitution is not allowed if checked.” on the VFD Order form)
  - If the VFD drug is listed by a proprietary name and the veterinarian does not specify that a substitution is not allowed, then the feed manufacturer may use either an approved pioneer or an approved generic drug.
