FINANCIAL PROVISIONS

Section A. ASSESSMENT RATE

1. For the period of February 1, 1996 through January 31, 1999, each fluid milk handler in this State shall pay to the Department an assessment at the rate of three (3) cents per gallon of fluid milk products sold in the state of California.

2. During the period of February 1, 1996 through January 31, 1999, the rates shall not be increased above three (3) cents per gallon of fluid milk products; provided, however, it may be reduced by the Department for any specific year if the Board so recommends by a vote of not less than two-thirds (2/3) majority of the total appointed Board. Any decision to reduce the

assessment shall be based upon a determination that the prescribed assessment will generate revenue in excess of that needed to effectively carry out the provisions of the Marketing Order.

3. In the event the Marketing Order is approved for an extension beyond January of 1999 as provided in Article XIII, each fluid milk handler in this State shall pay to the Department an assessment at the rate of three (3) cents per gallon of fluid milk produces, beginning on February 1, 1999 and continuing as long as the Marketing Order is in effect, unless the assessment is modified pursuant to Section B of this Article.

4. The monthly volume of fluid milk products sold during the time this Marketing Order is in effect shall be reported to the Department by the fluid milk handler in a manner prescribed by the Department, provided that each fluid milk handler shall be allowed no less than fifteen (15) days after the last day of the month in which the fluid milk products were sold to submit such reports.

5. In lieu of assessment rate applied on a per gallon basis, the Board may recommend and the Department may approve a rate based upon hundredweights of finished product or pounds of fat, solids-not-fat, and/or fluid carrier, provided such rate results in the same total monetary collection statewide and further provided that such rate includes all fluid milk products and all fluid milk handlers.

6. Assessments made pursuant to this Marketing Order shall in no event exceed the maximum assessment rates provided in Article 10 of the Act.

Section B. MODIFICATION OF ASSESSMENT RATE

1. Beginning February 1, 1999, the assessment rate may not be increased above three (3) cents per gallon of fluid milk products, except as provided herein.

2. For the period beginning February 1, 1999, the Board may recommend and the Department may approve an increase in the assessment rate above three (3) cents per gallon of fluid milk products to a level not exceeding four (4) cents per gallon of fluid milk products sold in the State; provided, that no increase in the rate of assessment shall be made effective by the Department unless and until such proposed increase in the rate has been recommended by the Board to the Department on a vote of not less than two-thirds (2/3) majority of the total appointed members, and thereafter submitted by the Department to a vote of fluid milk handlers.

If a vote of fluid milk handlers upon the question of increasing the assessment rate is held and if the Department finds that of those voting, a majority of the handlers accounting for a majority of the voted volume, approve of the proposed increase in assessment rate, it may make the proposed increase effective upon fluid milk handlers. If not, it shall not make such increase effective, in which case the assessment rate then in effect shall remain in effect.

3. The assessment rate prescribed in Section A of this Article, or any assessment rate established pursuant to Subsection 2 of Section B of this Article, may be reduced by the Department if the Board so recommends by a vote of not less than two-thirds (2/3) majority of the total appointed Board. Any decision to reduce the assessment shall be based upon a determination that the prescribed assessment will generate revenue in excess of that needed to effectively carry out the provisions of the Marketing Order.

Section C. ADJUSTMENT OF ASSESSMENT WHEN FEDERAL PROGRAM IN EFFECT

1. If during any time that any assessment is in effect under this Marketing Order, a mandatory national program for fluid milk processors involving any one or more of advertising, promotion, research, or education is ordered, the assessment rate provided for by this Marketing Order shall be reduced by an amount equivalent to the assessment rate established for the national program. In such instance, the Board and the Department shall make a maximum effort to secure a credit or rebate of at least 80% from the national program for the State program so that the State program shall have total funds available to it equal as closely as possible to the funds that would have been generated in the absence of the national program.

The reduction in the assessment rate for the State program is intended to offset the assessments paid by California processors to the national program, but only for those products which are assessed under both programs. There is no accounting by the State program for assessments paid on any additional products that are assessed only under the national program.

Section D. COLLECTION OF ASSESSMENTS

1 Each fluid milk handler shall be liable for the payments of assessments levied hereunder upon fluid milk products produced by him/her.

2 The Department shall prescribe procedures with respect to the application and collection of assessments authorized herein.

2. Upon recommendation by the Board, the Department may approve any such budgets, or amendments thereto, so recommended by the Board, if it finds that the same are proper and necessary to defray the expenses of the Board and the Department, and for carrying out any programs of advertising, promotion, research, and education authorized herein.

3. All monies derived from the assessment of fluid milk handlers pursuant to the provisions of this Marketing Order shall be expended exclusively for programs of advertising, promotion, research, or education applicable to fluid milk products as authorized herein, and in the Act, and for the necessary expenses incurred by the Board and the Department in the administration of such programs and this Marketing Order, and shall not be diverted to any other usages within the Department of Food and Agriculture or otherwise.

Section G. REFUNDS

Any monies collected as assessments by the Department pursuant to this Marketing Order, and not required to defray the expenses incurred under this Marketing Order, may be refunded at the

Nothing in this Section shall preclude the Board and Department from carrying over assessments collected in any fiscal year to a following fiscal year in which the Marketing Order is in effect, if such carryover will effectuate the purposes of this Marketing Order.

Section H. BONDS

The Department may require that any and all persons handling substantial amounts of money collected pursuant to the provisions of this Marketing Order shall execute and deliver to the Department a bond in such amount as the Department may designate with surety thereon satisfactory to the Department, conditioned upon the faithful performance of the duties of such person pursuant to this Marketing Order.
