## PIERCE'S DISEASE ASSESSMENT INSTRUCTIONS

1. Processors crushing less than 100 tons are NOT EXEMPT from the assessment. The Assessment is ultimately the responsibility of the producer. Producer means a grower, including a cooperative, of grapes in California for wine, wine vinegar, juice, concentrate, or beverage brandy.
2. The Pierce's Disease Assessment is collected by the processor. Processor means a processor who crushes grapes in California for wine, wine vinegar, juice, concentrate, or beverage brandy. All processors must collect the producer's Assessment and remit on or before January 10, 2022 to the California Department of Food and Agriculture; Processors crushing less than 100 tons are NOT EXEMPT from the Assessment. In the case of secondary sales (one processor to another processor), the collection of fees from the producer will be the responsibility of the first processor.
3. "Purchased grapes" means grapes grown in California, crushed by a processor for wine, wine vinegar, juice, concentrate, or beverage brandy, and purchased from a person considered a separate entity from the purchaser.

For purposes of calculating the amount to be collected by the processor for purchased grapes, the assessment shall be based on the gross dollar value of the grapes, which is the gross dollar amount payable for the grapes before any deductions for government assessments or fees. The weight used for calculating the gross dollar value shall not include material other than grapes and defects or other weight adjustments deducted from gross weight.

4. "Grapes not purchased" means all other grapes grown in California and crushed by a processor for wine, wine vinegar, juice, concentrate, or beverage brandy, including, but not limited to, the following:
  - a) Grapes grown by a person who is not considered a separate entity from the processor or who is a member of the processor cooperative.
  - b) Grapes not purchased and crushed to the account of a person who retains ownership of the grapes (grapes listed on Page 9, Question 4 of the Grape Crush and Purchase Inquiry). For example, a processor will not report grapes he/she "custom crushes" for another processor.

For purposes of calculating the assessment for grapes not purchased, the assessment shall be based on the following:

- c) The tonnage of grapes delivered less material other than grapes and defects or other weight adjustments deducted from gross weight.
  - d) The weighted average price per ton delivered basis purchased from all non-related sources for wine, wine vinegar, juice, concentrate, or beverage brandy by processors, by type, variety, and reporting district where grown for the grapes delivered, sources as reported in Table 10 of the Errata to the Final Grape Crush Report, 2020 Crop.
5. Assessments **shall not** be paid on (a) material other than grapes, and defects or other weight adjustments deducted from the gross weight ticket, (b) any raisin distilling material, and (c) grapes for which an assessment has been withheld, paid, or is already owed.
