

Instructions to use CARB Compost Ineligible Tool

Step 1: Go to the California Air Resources Board’s QM and calculator tools website at www.arb.ca.gov/cci-resources.

CCI Quantification, Benefits, and Reporting Materials

Step 2: Scroll down to the **Natural Resources and Waste Diversion** section to select the *Compost Ineligible Tool (Google Earth KMZ file)*. **Note:** If it asks you to open or save the file, select “open”.

To download and install Google Earth, visit <https://www.google.com/earth/>

Agency	Project Type	Quantification Methodology (QM) and Calculator Tool	Priority Population Benefit Criteria Table	Reporting Template
CEC	Agricultural Renewable Energy	Under Development	Energy Efficiency and Renewable Energy	Under Development
Natural Resources and Waste Diversion				
CDFA	Healthy Soils	Healthy Soils QM Compost Ineligible Tool (Google Earth KMZ file)	Healthy Soils	Healthy Soils

Step 3: Close the “Navigate in Google Earth” tutorial box.

Step 4: In the Search bar, enter the site location (address or latitude and longitude coordinates) for potential compost application to determine eligibility. Clicking on yellow thumbtack will produce a pop-up sign that states Soil Organic Matter exceeds 20%. Not eligible.

Note: if soil is eligible for compost application, no pop-up sign will appear (shown below).
