

**Alternative Manure Management Program (AMMP)
Technical Advisory Committee (TAC)
Office of Environmental Farming and Innovation (OEFI)
California Department of Food and Agriculture (CDFA)**
Updated 8/7/2020

Role

The TAC serves CDFA in the development of the program framework and guidelines for the Request for Grant Applications (grant solicitation) for the AMMP. TAC members have scientific and technical knowledge and expertise in manure management, methane reduction measures, environmental impacts and permitting in California. CDFA OEFI AMMP staff organize TAC meetings to obtain scientific and technical feedback on proposed programmatic components of AMMP. CDFA OEFI AMMP staff incorporate TAC comments prior to holding programmatic workshops for public comment. TAC members and their affiliations are provided below.

Members

TAC Member	Agency
