

CDFA recommends that agricultural operations participate in training regarding agricultural water management in order to maximize water and energy savings from SWEEP projects. SWEEP applicants that indicate that they will obtain training will be eligible receive additional consideration of their SWEEP application during the review period. Applicants may select one of the training resources below or another course that is relevant to their project type.

Vendor	Course	Information and Registration
Irrigation Association	Online course catalog (many courses available)	https://store.irrigation.org/SearchResults.aspx?Category=OLCLA
Irrigation Association	In-person training catalog (nationwide)	https://www.irrigation.org/mastercalendar.aspx?id=0
