

Saving Water

STATE WATER EFFICIENCY ENHANCEMENT PROGRAM

WHAT IS SWEEP?

California's State Water Efficiency and Enhancement Program (SWEEP) was created to provide financial incentives for agricultural operations to invest in water irrigation and/or distribution systems that save water and reduce greenhouse gas (GHG) emissions.

HOW MANY PROJECTS HAVE BEEN FUNDED SO FAR?

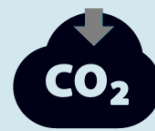

We have made grant awards to 587 projects covering over 109,000 acres. \$61 million has been awarded to date, with more than \$38 million in matching funds.

WHAT TYPE OF PROJECTS ARE ELIGIBLE?

Eligible system components include soil moisture monitoring, drip systems, switching to low pressure irrigation systems and instillation of renewable energy to reduce on-farm water use and energy.

BY THE NUMBERS

74,130

metric tons of CO2
equivalent reduced
annually

15,874

cars taken off the road for
one year (based on
emissions reductions
equivalent)

31 billion

gallons of water are
estimated to be saved
annually, enough to fill
nearly **47,000** Olympic-
size swimming pools!
