

Help Stop Glassy-Winged Sharpshooter (GWSS) from Spreading

This insect pest attacks hundreds of plants, many used in landscaping.

Handle GWSS host plant waste carefully:

- Crape myrtle
- Grapevines
- Citrus
- Arbutus
- Oleander
- Photinia
- Pittosporum
- Privet
- Other GWSS host material (bit.ly/GWSS-Hosts).

½ inch long
Actual size

Pruning or Removing Trees & Shrubs

Put green waste in one:

- Green waste bin
- On-site chip pile
- Local landfill

Chipping Material

After chipping:

- Keep chips on site, or
- Take chips to the local landfill

Moving Green Waste

When moving:

- Cover load with a tarp
- Process as soon as possible
